Subject: No parking at 2601 Century

This is a request to consider no parking at the west corner of Century and Crestline Dr. I am the owner of 2601 Century which is the only house directly affected by this request. We are experiencing a parking problem on the entire street due to the overflow problem of a nightclub 3 streets north of this location.

My primary concern is that of emergency vehicle access. As you are aware, this intersection has a unusual shape and a unusually large shaped median running north/south down the middle of it.

When there is cars parked in front of 2601 there is no way for these vehicles to enter or exit this intersection. The parking problem is primarily at night but does carry through to the next day, due to patrons leaving their vehicles for more than a couple of days???

Some of the vehicles are parked 2 feet away from the curb, adding to the issue.

We would be in favor of no parking from our property line to the intersection, but it might be worth determining if additional no parking is advised.

I educated Rich Barr to our concerns and he concurred that if the 20ft.

needed for the emergency vehicles is an issue, the his dept. would definately be in favor of opening up that intersection/street.

If no parking between 9pm-9am would solve the problem and is more favorable to the neighborhood, we would be also.

If you have any further questions please feel free to contact me @ this email address jefftryon@hotmail.com
