**Subject:** FW: Some Requests from Our Steering Committee

Hi David!

MV has brought a couple of items to our attention (see below). Please let me know if anything can be done about them.

Wendy

**Subject:** Some Requests from Our Steering Committee

A couple of items came up in our steering committee meeting yesterday that I would like to pass on to you for your consideration and assistance:

- 1) ~~Traffic Signal Issue – Crossgate and Clinton Parkway. If you are northbound on Crossgate, turning right (eastbound) onto Clinton Parkway, the right turn lane will not trigger the signal light to turn green. Since we can't turn right on red, paratransit vehicles have to wait for other traffic to trigger the light. Is that something that can be adjusted?~~
- 2) Requesting No Parking Zone – On 9<sup>th</sup> Street between Pennsylvania and New Jersey, could one side of the street be designated as no parking? There are businesses on both sides of the street that generate on-street parking on a narrow street causing concern for fixed route operators and supervisors.

Thanks for your consideration,  
Mike

ITEM NO. 3

New Jersey St

E 9th St

Pennsylvania St
