

LAWRENCE PARKS AND RECREATION DEPARTMENT
"GREENBELT" PARK – PUBLIC MEETING
Langston Hughes Elementary School
Wednesday, September 20, 2006

Additional Input and Feedback

Please keep the Park a natural area – some
play ground equipment on the North side
for very small children.

Have natural grasses and a nature school
so children and adults can study Nature —

Thank you

No soccer fields, baseball fields, etc.

Keep the trees – around the trails?

James: Have children at Langston Hughes have a contest for naming the park + trail. Like "Greenbelt" - sounds perfect!

LAWRENCE PARKS AND RECREATION DEPARTMENT
"GREENBELT" PARK - PUBLIC MEETING
Langston Hughes Elementary School
Wednesday, September 20, 2006

Additional Input and Feedback

I believe the Parks + Rec should begin with a mini-park + 1st phase of trail from Park to 15th St. as soon as possible with the \$200,000 already allotted. I admire the concept of keeping it as natural as possible.

The City + Parks + Rec have done a terrific job in planning and maintaining all the city parks. My grandchildren + I have visited the mall. Keep up the good work.

P.S. The controversial part of the trail by Waverly should have input from Public Works, Flood Control etc. before anything is done in that part of trail.

* Trails promote good health & true community -- they are very needed in this area; currently we are driving our children & their bikes to the YSI fields for safe biking - 3 mile drive to the nearest trail!
That said, please carefully plan this with safety in mind.

Also: if the trail is built, please add a stoplight @ GW & BB so people south of BB can safely cross & use it.
And, please consider connecting the trail to the SLT trail parallel to K-10.

Additional Input and Feedback

Do you have statistics on how much the present trails are being used?

Also, have you done research on how safe these trails really are for kids, etc.

Who is responsible for seeing that people clean up after their dogs? What can be done about people letting their dogs trespass on other people's property?

Who is going to pick up litter, etc.

The park trails you showed us were not immediately adjacent to people's back & side yards. Why does this one have to be right next to our property? Who decided on this route? They obviously don't own property in this area.

Or E-mail additional ideas to parksrez@ci.lawrence.ks.us

"GREENBELT" PARK – PUBLIC MEETING
Langston Hughes Elementary School
Wednesday, September 20, 2006

Additional Input and Feedback

Please realize that there is a viable alternative for the trail (note grayed-out) area that is not being seriously considered. You must realize the drainage problems between Stone Creek and Waverly areas. There are serious safety issues in placing a trail behind Stone Creek. The City preaches green space yet doesn't ^{always} practice what it preaches. The WANA represents only a handful of citizens - they do not speak for the majority. Use this money (\$500,000) wisely. Make a park that benefits everyone.

Rosa Lemesany. 5208 Fox Chase Dr.

I feel that with the speed of growth of this area, we need BOTH a playground + walking trail. There are so many children in this area, and they deserve a safe place to play and run around.

Andrea Dennehy - 5204 Fox Chase

I'd prefer a trail that we (my family - 2 kids) could use sooner rather than later. I'd rather the playground portion be just open grass until a later phase - if my kids want a playground we'll just use the schools'. But to be useful soon, the trail would have to have access from Harvard, not just playground to Bob Billings. We enjoy walking, as do people of all ages and some sort of a loop as a first phase would be appreciated.

Cc: Lisa Williams Thompson
Subject: greenbelt park

Hello Mr. DeVictor,

I am president of the Langston Hughes site council this school year. We had our first meeting last week. I brought up a couple questions pertaining to the greenbelt park near the school. In terms of a name for the park, two ideas which emerged were; Bobcat park, the school mascot and Langston Hughes. There may be more ideas at the meeting. We also discussed the issue of parking and a parking lot. The school does not have adequate parking at this time. We are on a five year plan for adding an additional lot. We are unsure what year we are in the five year cycle. Our school board representative, Cindy Yulich is checking on this for us. There was not a clear consensus on the issue of putting a parking lot within the park ground. There was some support in that it would encourage families to not use the schools parking lot. On the flip side putting in a parking lot at the park will mean that it would be used for school parking until the parking problem at Langston is solved. Either way, I have concerns about families and children crossing the street between the school and park. I know we will encourage people to cross at the roundabout but I think an additional protected crossing at the southern end of the park might be needed. I have recently seen some plans for a regional shopping center at George Williams Way and 6th (stretching toward K10). I think this could bring additional traffic to George Williams Way throughout the day. There is also retail slotted to go along the edge of the schools property. I just want us to look at the big picture of development when considering parking and pedestrian safety in the area. What may seem appropriate now may not be in 10 years. I also understand money is an issue and a parking lot would take a big chunk of the current budget.

I am also curious about money recently taken out of the fund for a rec center near Langston Hughes. I would appreciate any information you might have. Where did the money go? How much was it? Can we get it back in the future? I think there is still broad support for a rec center on this end of town. People know that the city and distric built our gym with the idea that it could be expanded into a rec center. It pays to live next to Ed Mullins. Becky actually told me about the money but did not know many details.

Thanks for all your work. I will see you on Wednesday and I think we will have a good turn out.

Paula

Parks and Recreation Department
City of Lawrence
Lawrence, KS 66044

9/15/06

Gentlemen:

I live on Longleaf Drive bordering the Langston Hughes Park. I attended meetings in 2004 to help develop a reasonable plan for the park and greenbelt, one that emphasized open spaces with native grasses, a small outdoor classroom with play equipment for children, and a nature trail. There are now many "new kids on the block" with divergent ideas. I take exception to the way one set of newcomers, the Alexander's, have framed their arguments in their flier, on TV, and in the newspaper.

1. Do we really think about the existing park property along George Williams Way as a "VACANT LOT?" It is inhabited by foxes, coyotes, rabbits, turkeys in season, deer, monarch butterflies, bluebirds, grasses, wild flowers. I see it as "RECLAIMED PRAIRIE," not an area to be cleared and replaced by jungle gyms, soccer fields, and parking lots.
2. Do we really equate "CHILDREN FIRST" with a "PLAYGROUND FIRST?" I submit that we think about "PEOPLE FIRST, PEOPLE OF ALL AGES." If our framework is "kids of all ages," we think about conserving and restoring the park's flora and fauna for study and enjoyment. We think about grown-ups with kids in hand meandering the trail.
3. Do we really believe that Langston Hughes Park is the only safe place for children to play in the neighborhood? What about the two neighborhood schools with playgrounds and playing fields? What about backyard swing sets and sandboxes for preschoolers? What about a safe walkway for kids to get to school in the first place?

I was not pleased with all the compromises made in the 2004 plan. The proposed ten foot wide concrete "trail" seemed more like a maintenance road for the sewer and pipeline systems. I thought that utility companies and developers should pay for such a thoroughfare not Parks and Recreation. I also worried that pollution in the form of litter and noise from skateboard, motorbike and even car users could be a problem. Could it be that the Alexander's, whose home is located on a proposed loop of the trail, are feeling vulnerable to such unpleasantness? I would be pleased if the meeting on 9/20/06 led to planning for open spaces, the replanting of trees decimated by developers, and a start on a narrower walking trail through the greenbelt. A nature classroom with some playground equipment gets my "vote" for phase 2 funding. Thank you for your kind attention.

Parks and Recreation Dept

From: JOHN F SURRITTE [jfsurritte@hotmail.com]
Sent: Friday, September 15, 2006 11:50 PM
To: Parks and Recreation Dept
Subject: Greenbelt Park, East of Langston Hughes Elementary School

We are residents of Longleaf Townhomes and received a notice from you about the upcoming Sept 20th public meeting regarding the development plan of the future "Greenbelt Park". Unfortunately, we will not be able to attend that meeting due to a prior commitment, but we would like to provide our input.

We looked at the master plan available on your website as referenced in your letter. We also read an article in the Lawrence Journal World today which indicated that a decision needs to be made about which part of the development to begin, since there are limited funds available at this time.

If part of the public meeting discussion involves which of the 4 'concepts' presented in the master plan should be done, we do not have a strong preference. It may be nice to have multiple paths (concrete or mowed trail) through the main part of the park as in concepts 3 or 2 or 1. We think the outdoor classroom is a nice idea. A playground is not important to us.

If a decision does need to be made about which part of the park to develop first, we would very much like to see the trail begun. We like to walk and this would be a great addition to our walking options. It would also be good if the many trees that were removed during the sewer installation could be replaced during this project.

Thank you.

Parks and Recreation Dept

From: Lieberman, Bruce S [blieber@ku.edu]
Sent: Saturday, September 16, 2006 10:41 AM
To: Parks and Recreation Dept
Subject: Greenbelt Park

I am sorry to trouble you but I am writing to strongly endorse, and I am in very much in favor of, the city's plan to build a Greenbelt park in West Lawrence. I am writing from my email address but am writing solely as a private citizen. I live in West Lawrence (on Stonecreek Dr.) and think the Greenbelt park for a biking and walking trail would make a great and valuable addition to our neighborhood and the city. I use the bike path in the southern part of town frequently with my two children and I feel this new greenbelt would greatly increase our opportunities for recreation and family fun. In fact I was totally psyched to hear it was part of the city park's master plan. The current bike trail is one of the great features about the town of Lawrence and expanding the trail system will only help make Lawrence a better place. I also feel there are not enough safe opportunities away from traffic for our children to ride bikes in our neighborhood and this will provide these.

I also have made an observation about those people who are opposing the building of this greenbelt; they seem strongly organized and actively came to my door to solicit my vote against it which caused me to look into the issue further. It is my firm belief that they are all strongly opposed to it because of the "Not in my backyard" syndrome. In effect, they want a tax-payer subsidized nature preserve that no one else can use in their backyard which seems rather selfish. It seems they may also be disingenuously using as a pretext to avoid building it the notion that we should instead spend the money to build a new playground on George Williams Way. The truth is that this playground would provide no real benefit for anyone with school age kids in the neighborhood because they can currently play after school or on the weekends at the Langston Hughes School playground, which is directly across the street from the playground they are pushing for.

Again, just to summarize, I strongly endorse the Greenbelt park and very much hope that the Lawrence City Commission will follow thru with the plan they have in place. It will help make Lawrence an even better community and provide safe, convenient opportunities for families with kids which are now needed more than ever with the growing childhood obesity epidemic. Please feel free to contact me if I can provide any further information and thank you very much for your time. Take care.

Sincerely,

Bruce

Fred DeVictor and neighbors of the greenbelt,

Subject: Public Meeting for development of the Langston Hughes Park

Compromise is necessary to resolve the neighborhood issues now heading for confrontation. The meetings held in 2004 started with some ideas none of the neighbors liked. Thank you for listening and moving the plans toward a compromise.

Given a limited budget some of the original ideas may need to be discarded and a more creative approach should be taken. Perhaps it doesn't have to be either a playground or a trail. Maybe it could be a little of both. Here are our suggestions to modify the current plan to satisfy most of the concerned neighbors.

- 1- First, Bill and I were most pleased that the existing stand of trees will remain natural. We choose our property with the understanding that this treed area was to be reserved as a natural wildlife habitat.*
- 2- We also do NOT take issue with the plan for a play area for children. We agree that the best location on the site is at the northwest corner as shown in the plan. However, we think if you keep the structure very modest the cost to build and maintain it will be more affordable.*
- 3- How much would it cost for the city gardeners to naturalize the rest of the "lot" with wild flowers (from seed) and natural grasses and big locally found rocks for benches? What a great field trip for students, of all ages, to name the native grasses, trees, wild flowers, butterflies, birds, and more!*
- 4- Although our property is directly adjacent to the proposed trail we are not against a trail. However, we do object to a 10 foot wide sidewalk when a 2-3 foot wide hard-packed dirt hiking trail would be more natural and less expensive for the city to engineer, build, and to maintain on the steep hill. Hikers of all ages would have fewer injuries while skateboards, motorcycles, and any other noisy vehicles would be discouraged. As you are aware, concrete is not cheap. A normal width sidewalk would be the next option and more acceptable to us. Another compromise to consider may be a wider trail around the more level areas north of Harvard and west of Waverly and a narrow trail in the steep and hilly southern apex. Walkers and hikers could choose their path.*
- 5- The trail should never be considered as an alternate or reasonable path for children to get to school. They haven't met our occasional bobcat or coyote. There is also mud and the hilly terrain not shown on the two-dimensional diagram! The safest route to Langston Hughes or Corpus Christie will always be along the existing side-walks (already provided at taxpayer expense) to the crossing guard by the school. Children using the trail or path might cross busy George Williams Way unsafely in the middle of the block.*

Bill and I don't know if the reduced budget has truly created an either-or situation between the trail and the playground as some may fear. However, it makes sense to start with the trail in the first phase because there is a small window of opportunity for easy (less intrusive and less expensive) access while many home lots are still vacant. If the scope of the plan is modified substantially and the trail is very narrow we hope there would be funds remaining for a small play area as well.

Let us all be guided by respect for neighbors, the costs, and wildlife. We hope a satisfactory compromise is reached for all concerned parties.

We are unavailable to attend the public meeting on Wednesday, September 20th. Please give due consideration to our concerns and suggestions.

Sincerely,
Sue and Bill Simmons

Request for Trail and Playground Construction

We the undersigned request that, within the limits of the funds allocated for greenbelt trail and playground construction, the City of Lawrence construct *all* portions of the greenbelt trail (as needed to create a continuous circular path), as well as playground construction. *"PREFERRING TRAIL FIRST"*

[illegible]
