Subject: 25th Terr & Hampton Street

Importance: High

Good morning;

My name is Shelley Black and I would like to state that on 25th Street Terrace and Hampton, there needs to be a four-way stop. There are currently two yield signs but these do no good for motorists. I have witnessed several vehicles flying through these intersections without even looking to see if cars are coming! I drive this route every day to take my daughter to daycare and I cannot believe what I see on a daily basis. For example: This morning I was making a left hand turn onto Hampton Street and as I was in the middle of the intersection (still turning), a car comes barreling out from 25th Street Terrace and almost hits the passenger side of my car if I didn't lay on my horn! That side is my daughter's side where she sits in her car seat everyday! The motorist didn't even look or wasn't even paying attention! I feel very strongly about this situation and want a 4 way stop set there immediately! Again, the yield signs do no justice what so ever! Please confirm you received this email.

Thank you
Shelley Black
