Charles F. Soules, P.E.
Director of Public Works
PO Box 708
6 East 6th
Lawrence, Kansas 66044-0708

Dear Mr. Soules:

Thank you for providing the November 2006 Traffic Analyses for the intersections of 6th Street with Queens Road, Stoneridge Drive, and George Williams Way (Target Year – 2025) to the Kansas Department of Transportation (KDOT) through Mr. Jerome T. Younger. The analysis was reviewed by the Traffic Section of the Bureau of Traffic Engineering. KDOT is in support of the city installing traffic signals at the time geometric improvements are pursued along 6th Street at George Williams Way and Stoneridge Drive.

Please keep our District, Area, and Traffic Engineering personnel informed regarding the geometric and signalization improvements. I believe at some point in time, the city will need to fill out the appropriate permits to move forward with future improvements. If you have any questions about the decision of this agency, please call me at 785-296-1181.

Sincerely,

Brian D. Gower, P.E.
State Traffic Engineer
