RE: 2007 Downtown Waterline Improvements

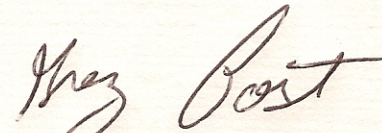

Mr. Brian Kingsly, PE
BG Consultants, Inc.
1405 Wakarusa Drive
Lawrence, Kansas 66049

Dear Mr. Kingsly:

Nowak Construction Company Inc. interpreted the "bullet" on page NC-2 containing the statement: "The Waterline installation under this contract shall be performed by the prime contractor." referred back to the preceding paragraph relating to evidence of "five or more successful projects" that the Bidding Contractor was the "Prime Contractor" who installed all waterlines. This interpretation evidently conflicts with the official position of the City of Lawrence.

To that end, consider this letter official notification that Nowak Construction Company Inc. will install all waterlines with our own personnel and equipment. We consider it a privilege to bid work let by the City of Lawrence and will work diligently to make this project even more successful than last year's.

Sincerely,

Greg Post
Project Manager
