Request for "NO PARKING"  
Signs in residential area

Thank you so much for all your help. City of Lawrence can be proud of you representing them in such a professional manner. The promptness of answering your telephone is great and the manner in which you follow up on inquiries from the Lawrence residences. Again "Thank You", we the people are quick to complain and slow to compliment.

1. I am writing to request "No Parking Signs" on both sides of the street on 24<sup>th</sup> Street at Kasold down the hill to Winterbrook.
2. Brushcreek Drive at 24<sup>th</sup> Street to Winterbrook

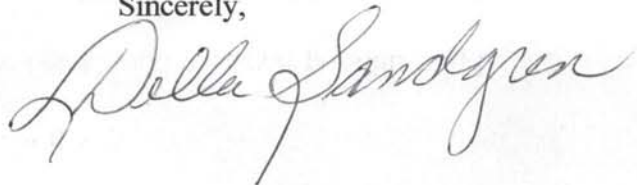

This request is being made due to coming down 24<sup>th</sup> Street from Kasold it is often necessary to pull over behind a parked car to allow a car coming from the West to go thru to Kasold.. There are 4 or more parking spaces in each drive. However, particular during school term there will be 2 or more cars on the street in front of each residence and only one in the drive.

On Brushcreek Drive at 24<sup>th</sup> down to Winterbrook there is a number of cars and trucks, and trailers parked on the street making it difficult when backing out of your drive to see a car coming either up or down Brushcreek Likewise when going North and South on Brushcreek you must pull over behind a parked car to allow an on coming car to go through. Likewise on 24th and Brushcreek Dr. there are 4 or more parking spaces in the driveways.

Please let me know what can be done to perhaps get the "No Parking Signs" on these two streets

Thanks again for all your help. I know it is in good hands and whatever possible will be accomplished.

Sincerely,

Della Sandgren  
2408 Brushcreek Drive.
