November 1, 2007

Ms Dena Mezger  
Asst. Public Works Director  
City of Lawrence Kansas  
P.O. Box 708  
6 E 6th Street  
Lawrence, KS 66044

Dear Ms Mezger:

Lawrence Municipal Airport  
AIP No. 3-20-0047-14  
Gas Line – Southern Agreement

The subject reimbursement agreement with Southern Star Central Gas Pipeline is acceptable for use on the subject AIP funded project. This agreement provides for the following;

“Relocate and lower approximately 1,000’ of existing gas line to accommodate improvements to the runway safety area”

This approval is based on the compensation of actual costs for Southern Star Central Gas Pipeline services not exceeding \$333,000. Please provide advance coordination if the actual costs appear to exceed this value. Please ensure that invoices for this work show sufficient detailed information of the actual costs incurred by Southern Star Central.

Be advised that FAA policy for utilities installed on airport property requires that utility rights be subordinated to the airport owner for the purpose of protecting uninterrupted operation of the airport. We trust that your existing lease agreement with Southern Star Central adequately protects normal operation of the airport unless formal approval is obtained.

Sincerely,

Mike A. Rottinghaus  
FAA Airport Engineer
