Jim Stuit
City Utilities Department
City of Lawrence

Dear Mr. Stuit,

At long last, my sprinkler system has been installed at 719-721 Massachusetts Street. It has been inspected and passed by both the Lawrence Fire Department and ISO (ISO is the national organization that verifies the proper installation of sprinkler systems and reports their findings to the insurance underwriters).

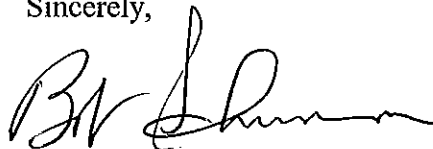

As I explained in an earlier telephone call, we were faced with additional charges due to unforeseen problems that arose during the installation. Included below are all the invoices which I received per the sprinkler installation.

1.	Conley Sprinkler	\$26,905.00	Bid
2.	Conley Sprinkler	\$11,669.00	Bid
3.	Krizman Carpentry	\$ 6,335.00	Insulation top floor - Repair ceiling tiles, clean-up.
4.	Conley Sprinkler	\$ 4,600.00	Additional valve and drain and obstructions above ceiling.
5.	Krizman Carpentry	\$ 141.19	Heat tape and installation on wet pipe in Smoker Room. No heat is available in this room.
6.	451 Protection	\$ 539.18	Accidental discharge of wet hood system in Smoker Room.

TOTAL \$50,189.84

Please review and submit the above infoices for payment. If there are any questions, please call me. Thanks!

Sincerely,

Bob Schumm
Property Owner
