CITY MANAGERS OFFICE
LAWRENCE, KS

CITY HALL, P.O. BOX708, LAWRENCE, KS.66044

Dear Sir or Madam:

The City of Lawrence has adopted licensing requirements for contractors and tradespersons performing work within the city's jurisdiction. Currently Roofing Contractors are not covered under these requirements.

The majority of Lawrence's roofing contractors are willing and hopeful to be covered under the Lawrence licensing requirements. The desire of the contractors is that roofing contractors would be licensed, and fall under mandates mirroring those currently enforced in Johnson County. We believe licensing is an important part of providing Lawrence residents with the highest quality workmanship available. Greater respect and community trust will be brought to Lawrence's roofing industry through licensing.

We the undersigned request your immediate action in this very important matter. To the full extent that your position allows please help to facilitate the process of including Roofing Contractors in the licensing requirements currently in effect.

Sincerely,

David A. McLaughlin
Contractors Representative
