## I. EXECUTIVE SUMMARY

The Lawrence Convention & Visitors Bureau's (LCVB) primary mission is to improve the local economy by attracting visitors, meetings, conventions and events to the city. This mission is undertaken through a variety of marketing and development strategies designed to promote Lawrence as a destination to defined markets.

The LCVB is funded through the collection of a 5% transient guest tax by a state statute and city ordinance on local hotel rooms. Budgeting of these funds is done through the city budget process. The LCVB also works with a city commission-appointed Advisory Board.

Tourism as an industry is estimated at more than \$554.5 billion annually in the United States. In 2007 tourism is estimated to have generated more than \$49.12 million in direct expenditures in Lawrence, including more than \$36.76 million in direct expenditures by overnight guests alone. Additionally, visitors to Lawrence are estimated to have generated more than \$982,486 in local sales tax revenue.

LCVB 2007 highlights include a record 567,092 individual users to the <u>www.visitlawrence.com</u> Web site, more than 9,934 visitors to the Lawrence Visitor Information Center, 193 meetings and conventions were reported to the LCVB with a total attendance of 19,695 delegates and 30 sporting events drew more than 30,400 participants during the year. In 2007 the LCVB also responded to local, regional and national media leads and distributed information about Lawrence that generated editorial coverage about the city with an advertising equivalent in excess of \$535,285. In 2008 the LCVB will build on these successes through a carefully drafted set of Goals.

Tourism trends, the results of a SWOT analysis completed by the LCVB staff and past successes culminated into the development of specific Goals and Objectives for the LCVB in 2008.

A working calendar and 2008 fiscal year budget are included in this plan to provide basic project timing and finance information.

#### A. Bureau Overview

#### **LCVB Organizational Overview**

The City of Lawrence contracts with the Destination Management, Inc. (DMI) to operate a Convention and Visitors Bureau (CVB). The President of DMI is hired by, and reports to, a Board of Directors made up of the City Manager, Mayor or appointee from the City Commission, County Administrator, County Commissioner, two Freedom's Frontier National Heritage Area representatives, one Chamber of Commerce representative, and one CVB Advisory Board member appointed by the Mayor. The DMI President manages the CVB, Freedom's Frontier National Heritage Area and funding provided by the Douglas County Commission to Douglas County historical societies.

The CVB is funded through transient guest tax collected by the state on local hotel rooms. Budgeting of these funds is done through the city budget process.

The City Commission appoints an Advisory Board to work with the Bureau. An Advisory Board member, appointed by the Mayor, serves a one-year appointment on the Destination Management Inc. Board of Directors. According to Charter Ordinance #22, six members of the advisory board must be representatives from the hotel/motel industry. Charter Ordinance #29 in 1993 increased the size of the board to 13 members, making non-hotel membership seven.

Charter Ordinance #30 created a transient guest tax reserve fund to be used for promotion, enhancement, maintenance or improvement of the tourism, visitor or convention industry of the city. The ordinance allows for CVB Advisory Board input on the use of this fund. Charter Ordinance #36 increased the transient guest tax from 4 to 5%, beginning January 1, 2004.

### B. Trends Overview

#### **LCVB Planning Assumptions and Considerations**

- The planning and activities of the LCVB continue to be subject to the amount of funds available through the 5 % transient guest tax.
- Marketing opportunities through the Internet and online services will continue to be a strong focus of the Lawrence CVB. With 65 million travelers booking travel online (up 70% from 2004), the opportunity for Lawrence hotels to offer online booking is increasingly important. Additionally, the CVB will continue to make ongoing enhancements to the Web site, distribute electronic newsletters to those in the CVB database, provide news releases electronically, respond to online travel writer requests, etc.
- The state of Kansas will continue to be a primary source of convention and meeting business for the LCVB. Lawrence residents are key contacts in bringing the business home.
- Visitor interest in cultural and heritage tourism continues. This traveling population seeks highquality, educational experiences. Heritage activities such as the Freedoms Frontier National Heritage Area, Civil War on the Western Frontier and places like the Dole Institute are of great interest to these visitors.
- In Lawrence, an American for the Arts survey revealed that event-related spending by arts audiences totaled \$16.5 million annually, not including the cost of admission. The same survey revealed that 195,718 non-residents attend arts events each year in the community. This highlights the importance of cooperatively marketing Lawrence and the arts.
- Mature travelers over 55 average the longest stays away from home. Many indicate an interest in traveling for educational purposes and adventure and generally have more flexibility determining when to travel. Promoting and partnering with KU Continuing Education for the new Osher Learning Institute is a way to reach these audiences.
- Dining, shopping, museums and tours are top activities for travelers. The availability of all such opportunities in Lawrence is a benefit and will continue to be a strong emphasis in marketing efforts including the Visitors Guide, regional advertising and Web site promotions.
- Organized sports events have attracted more than 75.3 million U.S. adult travelers in the past five years. The most popular events include baseball, softball, football, basketball and auto racing all of which are offered in Lawrence or the surrounding area.

#### 2007 Lawrence Visitor Economic Impact

#### Lawrence Market Analysis – Competition

Lawrence continues to face increasing competition for visitor spending from surrounding communities and from an increase in leisure opportunities in general. This competition impacts both leisure travel and convention/meetings/sporting event attraction.

In Junction City and Overland Park more spacious and modern meeting facilities create competition for regional group business. Topeka and other Johnson County communities boast recently updated sports venues including aquatic facilities and softball/baseball diamonds. These newer facilities offer more amenities than many Lawrence venues and often force Lawrence to compete in service-related ways to compensate for less suitable facilities in meetings and sports business.

Leisure travelers are also faced with an astonishing array of options in how to spend their time and money. For example, growth of spectator sports venues, shopping, dining and destination accommodations in Kansas City, Kan., is competition for Lawrence in attracting drive market visitors. The competition is very real, and in an effort to leverage that in Lawrence's favor it is necessary to position Lawrence as an ideal overnight destination from which visitors can daytrip into "competitive" communities such as the Kansas City metropolitan area and Topeka. The tourism industry is, and will continue to be, an important source of income and employment for Lawrence and Douglas County. The tourism industry makes the following important contributions to the Lawrence community:

- Imports new dollars through visitor spending
- Creates jobs
- Provides economic diversification
- Expands the tax base
- Creates identity and image
- Creates additional local amenities (i.e. hotels, restaurants, etc.)
- Builds audiences for local events

In addition to the July 14-19 National Championship, the dates of the four new tournaments are: April 19, June 7, June 21 and July 4. LCVB's role last year was sponsorship recruitment, securing venues, complimentary rooms for officials and providing meals to the officials during the tournament.

- 2. The funds must be used for events that will directly promote amateur athletic events in the Lawrence area involving one or more of the following:
  - a. The funds are primarily intended to draw people from outside the community and are not to be used to promote activities that primarily serve the existing population.
  - b. A direct or indirect economic benefit must be demonstrated.
  - c. The funds are intended to be used for events that create and attract state, regional or national amateur sports-related activities.
  - d. More consideration will be given to those projects that benefit a large portion of the community as opposed to a limited segment.
  - e. More consideration will be given to those projects that are potentially of an ongoing nature.
  - f. The funds are to be used primarily to fund new events although funding requests for existing events may be considered.
- 3. Applicant must submit a proposed budget of expense, projected revenues and their sources and plan for payback of the loan prior to approval. If the loan application is approved, a detailed report and budget must be submitted within 30 days after the event. Depending on amount of loan and scope of event, an administrative fee and/or matching money may be charged.
- 4. Please provide two references documenting your involvement relating to similar past activities. Proven success in organizing and hosting events will be taken into consideration.

# Appendix C: Convention/Meeting Lead Process

Step	Description
1. Initiate Lead	Lead is initiated through personal contact, sales call, tradeshow, local public involvement, request by facilitating organization or request from state tourism office.
2. Collect Information	Convention Director will request and organize the following information: Organization, meeting name, contact person, contact information, meeting dates, total room nights, room flow, largest meal, largest meeting, number of attendees, decision date, competitive sites (other than Lawrence), history of event, attendee profile, and any additional program or notes.
3. Send Lead	The above information is then organized into a one-sheet Convention/Meeting Lead that is faxed to <u>each</u> hotel property located within the Lawrence city limits. Except under specific conditions each property will receive the lead regardless of amenities requested or needed to host the event.
4. Follow Up	The Lawrence Convention and Visitors Bureau requests notification on each property's availability to host the event and to be copied on all correspondence with the potential client. Upon learning the client's decision, the Convention Director will notify those properties that submitted an official bid and inform them on which hotel property was awarded the event. The Convention Director will track those hotels that respond and which hotels are awarded each specific event.
5. LCVB Services	Upon notification of a winning bid placed by a Lawrence hotel property, the Convention Director will contact the client to offer additional services available through the Lawrence Convention and Visitors Bureau, i.e. welcome packets, volunteer assistance, coordination of off-site activities and other specific needs requested for a successful event.
