KANSAS CHILDREN SERVICE LEAGUE PRESENTATION

Tracie Lansing, LMSW, East Region Director, provided the Board with a brief summary on the Healthy Families program. Kansas Children Service League (KCSL) is a not for profit agency serving children and families across the state. Services are initiated initially prenatally or at birth. A standardized assessment tool is used to systematically identify families who are most in need of services. Goals of the Healthy Families program are to prevent child abuse and neglect, to enhance child health and development, to promote positive parenting, and to improve family self-sufficiency. The Healthy Families America is a nationally accredited approach to home visitation defined by a set of critical program elements as suggested by repeated evaluations of early intervention programs with new parents. The purpose of the KCSL presentation was for the Board to consider providing a valuable service to the community and housing KCSL at the Health Department. The Board asked Dan Partridge to report on the costs and benefits of the program related to the Health Department and the community at the October Board meeting.
