

Petition for Better Traffic Safety at the Intersection
of Peterson Road and Arrowhead Drive

The Undersigned residents of the Deerfield area of Lawrence, Kansas support better traffic control on Peterson Road for the following reasons:

- Peterson Road is a very busy street with a speed limit of 40 miles per hour (though many drivers exceed the speed limit). There are no traffic lights or stop signs between Iowa and Kasold, a stretch of more than one mile through a residential neighborhood.
- The area has seen a significant increase in traffic due to residential development north of Peterson Road and south of I-70 between Monterey Way and Kasold.
- Many pedestrians, as well as children on bikes or scooters, cross Peterson Road at Arrowhead Drive to travel to and from Deerfield Park and Deerfield School. During good weather, numerous families travel this route on any given day. Sometimes, older children cross alone.
- There is a hill approximately 100 feet to the East of the intersection that makes it hard to detect the high-speed vehicular traffic approaching from that direction.
- It is not uncommon to have to race across the street to beat traffic that is traveling faster than allowed or expected. This is exacerbated by the fact that it is three lanes wide.
- During peak traffic times, it can be very difficult, nearly impossible, to cross Peterson Road at all.
- A crossing guard is present when school begins and is let out, but this is a very short frame of time that the intersection sees pedestrian traffic. PLEASE NOTE: WE DO NOT SUPPORT LOSING OUR CROSSING GUARD, AS ADULT JUDGMENT IS STILL NEEDED AT THE SCHOOL CROSSING, DESPITE ANY PEDESTRIAN CONTROLLED TRAFFIC LIGHT.
- Many vehicles have been observed to violate traffic rules or ignore pedestrians at the intersection. During crossing hours, a police officer sometimes situated nearby and hands out many tickets to drivers who ignore the reduced speed limit. During all times, pedestrians must cross the street very defensively and this is difficult for families with children (often including, bikes, scooters and strollers).

We therefore ask for a pedestrian-controlled red light at the intersection of Peterson Road and Arrowhead Drive. It is our belief that this is necessary to allow the enjoyment of our residential neighborhood and to prevent an unnecessary accident involving a pedestrian.

- Many pedestrians, as well as children on bikes or scooters, cross Peterson Road at Arrowhead Drive to travel to and from Deerfield Park and Deerfield School. During good weather, numerous families travel this route on any given day. Sometimes, older children cross alone.
- There is a hill approximately 100 feet to the East of the intersection that makes it hard to detect the high-speed vehicular traffic approaching from that direction.
- It is not uncommon to have to race across the street to beat traffic that is traveling faster than allowed or expected. This is exacerbated by the fact that it is three lanes wide.
- During peak traffic times, it can be very difficult, nearly impossible, to cross Peterson Road at all.
- A crossing guard is present when school begins and is let out, but this is a very short frame of time that the intersection sees pedestrian traffic. PLEASE NOTE: WE DO NOT SUPPORT LOSING OUR CROSSING GUARD, AS ADULT JUDGMENT IS STILL NEEDED AT THE SCHOOL CROSSING, DESPITE ANY PEDESTRIAN CONTROLLED TRAFFIC LIGHT.
- Many vehicles have been observed to violate traffic rules or ignore pedestrians at the intersection. During crossing hours, a police officer sometimes situated nearby and hands out many tickets to drivers who ignore the reduced speed limit. During all times, pedestrians must cross the street very defensively and this is difficult for families with children (often including, bikes, scooters and strollers).

We therefore ask for a pedestrian-controlled red light at the intersection of Peterson Road and Arrowhead Drive. It is our belief that this is necessary to allow the enjoyment of our residential neighborhood and to prevent an unnecessary accident involving a pedestrian.

Petition for Better Traffic Safety at the Intersection
of Peterson Road and Arrowhead Drive

The Undersigned residents of the Deerfield area of Lawrence, Kansas support better traffic control on Peterson Road for the following reasons:

- Peterson Road is a very busy street with a speed limit of 40 miles per hour (though many drivers exceed the speed limit). There are no traffic lights or stop signs between Iowa and Kasold, a stretch of more than one mile through a residential neighborhood.
- The area has seen a significant increase in traffic due to residential development north of Peterson Road and south of I-70 between Monterey Way and Kasold.
- Many pedestrians, as well as children on bikes or scooters, cross Peterson Road at Arrowhead Drive to travel to and from Deerfield Park and Deerfield School. During good weather, numerous families travel this route on any given day. Sometimes, older children cross alone.
- There is a hill approximately 100 feet to the East of the intersection that makes it hard to detect the high-speed vehicular traffic approaching from that direction.
- It is not uncommon to have to race across the street to beat traffic that is traveling faster than allowed or expected. This is exacerbated by the fact that it is three lanes wide.
