Division of Environment

October 6, 2009

Mr. Steven Stewart
City of Lawrence
6 East 6th Street, BOX 708
Lawrence, KS 66044

Dear Mr. Stewart:

The Kansas Clean Diesel Program grant committee has completed our review of the grant applications submitted for the summer 2009 diesel emission reduction competition. Our committee has selected your project in the amount of \$26,800.00 for funding based on our collective review.

The next step is for the Kansas Department of Health and Environment (KDHE) to complete the contract process for your expeditious reimbursement before you purchase your equipment. We anticipate the contract will arrive to you in the next few weeks. Upon receiving all signatures equipment may be purchased and installed.

Please feel free to contact Kathleen Waters with questions or comments at 785-296-1575 or via e-mail at: kwaters@kdheks.gov.

We are looking forward to working with you in this collective effort to keep Kansas clean and competitive.

Sincerely,

Douglas Watson
