Hi Scott,

I just rec'd the report below from Sgt Monroe of the police department. I had asked him for any information on police reports generated by boarding houses vs. other kinds of properties on Oread, to try to get some objective information on the topic. Turns out, he had prepared this information for another requester, so it was on hand.

I want to share this report with the planning commissioners. I'll bring a hard copy with me. The numbers are rough and include all types of police calls, but with more time the numbers could be broken out if helpful.

Please email to the planning commissioners as well. Thanks.

Thanks, Lisa

Ms. Harris

Here is the list of the amount of calls from each address. We did not have time to break it down by call type. In addition I did not include 1300 Ohio. That address captures all of the activity in the intersection and it would throw your numbers out of whack.

These numbers are from January 1, 2008 until November 1, 2009.
