PRESENTATION – RUBIN BROWN CPA

RubinBrown LLP was founded in 1952. They have offices in Kansas City and St. Louis. RubinBrown LLP is contracted to perform the audit for Douglas County. The Health Department is a component of the county audit. Chip Harris reviewed the summary of audit procedures and stated the Health Department's audit process will be completed once the county audit is finalized. Final audit numbers should be completed by mid July. Findings by the auditing firm were an increase in cash and cash

equivalents due primarily to increased funding received as a result of H1N1. An increase in accrued compensation due to additional accruals for vacation benefits payable. There was a decrease in expenses due primarily to decreases in salaries and wages as well as decreased bad debt expense. Chip also stated there were no deviations or significant errors. Chip and Tim said they would provide the Board with an audit update in October.

Kansas Health Policy Authority (KHPA) – Healthy Families Program

Dan Partridge requested that the contract renewal between the Lawrence-Douglas County Health Board and Kansas Children's Service League for Healthy Family Kansas Program Services be deferred to the July Board meeting.

Women, Infants and Children (WIC) Program Low Birth Weight (LBW) Rate

Dan Partridge reviewed the Women, Infant and Children Supplemental Nutrition Program (WIC) Low Birth Weight (LBW) analysis of 2010 first quarter births with the Board. Mothers having low birth rate babies were slightly younger and were less likely to enroll in WIC in the first trimester. For the first quarter of 2010, 130 births and 20 risk factors were analyzed and a statistically significant association was found between low birth weight and the following risk factors: first trimester enrolled in WIC, gestational age, number of risk factors, history of low birth weight and history of premature births.

Community Health Assessment Process

Dan Partridge presented the Board with a Community Health Assessment Process Map that defines the process to be used to determine what the health status of the community looks like. Health Care Access student interns will collect and organize the data into a draft report. Once the data is complete and reviewed by the Health Board, it will go to the Douglas County Community Health Improvement Partnership (CHIP) leadership group for their review. Dan Partridge stated he has been working with Amy Biel on the proposed Douglas County community health assessment indicators. Dan and Amy reviewed Healthy People 2020 indicators, Kansas Health Institute and the Robert Wood Johnson Foundation county

health ranking indicators to see which ones to incorporate. Dan stated that CHIP reviewed the Douglas County indicators. CHIP recommended adding the following indicators: under Access to Health Care the number of long term care beds and percent of long term care beds occupied. Also, under Injury and Violence added alcohol related motor vehicle crash death rate.
