2. The Secretary is authorized by the City to take such steps as are deemed by the Secretary to be necessary or advisable for the purpose of securing the benefits of the current Federal-Aid Transportation Act for this Project.

3. To design the Project or contract to have the Project designed in conformity with the state and federal design criteria appropriate for the Project in accordance with the current Project Development Manual for Non-National Highway System Local Government Road and Street

Because of the Secretary of Transportation of the State of Kansas' (Secretary's) obligation to administer state funds, federal funds, or both, the Secretary shall be a third party beneficiary to this agreement between the City and the Consultant. This third party beneficiary status is for the limited purpose of seeking payment or reimbursement for damages and costs the Secretary or the City or both incurred or will incur because the Consultant failed to comply with its contract obligations under this Agreement or because of the Consultant's negligent acts, errors, or omissions. Nothing in this provision precludes the City from seeking recovery or settling any dispute with the Consultant as long as such settlement does not restrict the Secretary's right to payment or reimbursement.

5. The City and any consultant retained by the City shall have the sole responsibility for the adequacy and accuracy of design plans, specifications, estimates, and necessary surveys, investigations or studies, including, but not limited to, environmental, hydraulic, and geological investigations or studies for the Project. Such reviews are not done for the benefit of the consultant, the construction contractor, the City, or other political subdivision, nor the traveling public. The Secretary makes no representation, express or implied warranty to any person or entity concerning the adequacy or accuracy of the design plans, specifications, estimates, and necessary surveys, investigations or studies, including, but not limited to, environmental, hydraulic, and geological investigations or studies for the Project, or any other work performed by the consultant or the City.

Right of way descriptions must be signed and sealed by a licensed land surveyor responsible for the preparation of the right of way descriptions.

7. It will, in its own name, as required by law, acquire by purchase, dedication or condemnation all the rights of way, easements, and access rights shown on the final design plans in accordance with the schedule established by the Kansas Department of Transportation. The City agrees the necessary rights of way, easements, and access rights shall be acquired in compliance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, and administrative regulations contained in 49 C.F.R., pt. 24, entitled Uniform Relocation Assistance and Real Property Acquisition for Federal and Federally Assisted Programs. The City shall certify to the Secretary, on forms provided by the Bureau of Local Projects, such rights of way, easements, and access rights have been acquired. The City further agrees it will have recorded in the Office of the Register of Deeds all rights of way, deeds, dedications, permanent easements and temporary easements.

11. The Secretary shall have the right to utilize any land owned or controlled by the City, lying inside or outside the limits of the City as shown on the final design plans, for the purpose of constructing the highway Project. Neither the Secretary nor the Federal Highway Administration shall participate in the cost of these rights of way or easements.

The City further agrees to certify to the Secretary on forms supplied by the Secretary all utilities required to be moved prior to construction have either been moved or a date provided by the City as to when, prior to construction, they will be moved. The City will initiate and proceed to complete adjusting the remaining utilities not required to be moved during construction in order the contractor shall not be delayed in construction of the Project. The City will indemnify, hold harmless, and save the Secretary and the construction contractor for damages incurred by the Secretary and construction contractor because identified utilities have not been moved or adjusted timely or accurately.

14. To furnish the Secretary a list of existing and known utilities affected, together with locations and proposed adjustments of the same and designate an individual to be responsible for coordinating the necessary removal or adjustment of utilities.

The detailed inspection is to be performed by the City forces or the consultant. The Secretary does not undertake for the benefit of the City, the contractor, the consultant or any third party the duty to perform the day-to-day detailed inspection of the Project, or to catch the contractor's errors, omissions, or deviations from the final design plans and specifications. The City will require at a minimum all personnel, whether City or consultant to comply with the high visibility apparel requirements of the KDOT Safety Manual, Chapter 4, Section 8 Fluorescent Vests. If the City executes an agreement for inspection, the agreement shall contain this requirement as a minimum. The City may set additional clothing requirements for adequate visibility of personnel.

The City will remit its estimated share by the date indicated on the resolution form Authorization to Award Contract, Commitment of City Funds received by the City from the Secretary. The City will deposit its estimated share in two equal payments. The date indicated for the City to deposit the first payment shall be on or before January 2, 2011. The second payment shall be deposited with the Secretary on or before January 2, 2012.

18. To be responsible for twenty percent (20%) of the total actual costs of construction (which includes the costs of all construction contingency items) and construction engineering, up to \$1,250,000.00 for the Project. In addition, the City agrees to be responsible for one hundred percent (100%) of the total actual costs of construction (which includes the costs of all construction contingency items) and construction engineering that exceeds \$1,250,000.00 for the Project. Further, the City agrees to be responsible for one hundred percent (100%) of the total actual costs of preliminary engineering, rights of way, and utility adjustments for the Project.

The City shall make its records and books available to representatives of the Secretary and/or the Federal Highway Administration for audit for a period of five (5) years after date of final payment under this Agreement. If any such audits reveal payments have been made with federal funds by the City for

items considered non-participating, the City shall promptly reimburse the Secretary for such items upon notification by the Secretary.

21. If it cancels the Project, it will reimburse the Secretary for any costs incurred by the Secretary prior to the cancellation of the Project. The City agrees to reimburse the Secretary within thirty (30) days after receipt by the City of the Secretary's statement of the cost incurred by the Secretary prior to the cancellation of the Project.

22. To adopt an ordinance requiring the removal of all encroachments either on or above the limits of the right of way shown on the final design plans for this Project, and it will initiate and proceed with diligence to remove or require the removal of the encroachments. It is further agreed all such encroachments be removed before the Project is advertised for letting (provided, however, if the Secretary is satisfied, with respect to any encroachment, the physical removal thereof has been fully provided for between the City and the owner thereof and will be accomplished within a time sufficiently short to present no hindrance or delay to the construction of the Project, the Secretary may cause the Project to be advertised for letting before such encroachment is fully removed). The City further agrees it will not in the future permit the erection of gas and fuel dispensing pumps upon the rights of way of the Project, and it will require any gas and fuel dispensing pumps erected, moved, or installed along the Project be placed no less than twelve (12) feet back of the right of way line. All rights of way provided for the Project shall be used solely for public street purposes and no signs, posters, billboards, roadside stands, fences, structures, or other private installations shall be permitted within the right of way limits except as provided by state and federal laws.

23. To adopt all necessary ordinances and/or resolutions and to take such legal steps as may be required to give full effect to the terms of this Agreement.

24. To locate and be responsible for all costs necessary to remedy or clean up any hazardous waste site, including, but not limited to, leaking underground storage tanks discovered on rights of way, easements, and access rights acquired by the City. The City shall be responsible to the Secretary for all damages, fines or penalties, expenses, claims, and costs incurred by the Secretary from any hazardous waste site discovered on rights of way, easements, and access rights acquired by the City prior to commencement of construction of the Project. The City shall take appropriate action to contain or remediate any identified hazardous waste site within the Project limits prior to letting of the Project. The City will investigate any and all hazardous waste sites discovered during construction of the Project on City owned land within the Project boundary and shall take appropriate action to contain or remediate such hazardous waste sites.

For any hazardous waste site, including, but not limited to, leaking underground storage tanks, the City shall hold harmless, defend, and indemnify the Secretary, its agents and employees against and from all damages, expenses and costs incurred by any person, the State of Kansas, or the United States Government for determining and undertaking remedial action, any fines or penalties assessed under state or federal laws, contract claims, personal injury claims, and damage of or loss of natural resources.

It is specifically agreed between the Parties executing this Agreement any provision of

this hazardous waste clause is not intended to make the public, or any member thereof, a third party beneficiary hereunder, or to authorize anyone not a party of this Agreement to maintain a suit for personal injuries, property damages, or hazardous waste claims. The duties, obligations and responsibilities of the Parties to this Agreement with respect to third parties shall remain as imposed by law.

The City, by signing this Agreement with the Secretary has not repudiated, abandoned, surrendered, waived or forfeited its right to bring any action, seek indemnification or seek any other form of recovery or remedy against any third party responsible for any hazardous waste on any rights of way, easements, and access rights acquired by the City. The City reserves the right to bring any action against any third party for any hazardous waste site on any rights of way, easements, and access rights acquired by the City.

The term hazardous waste includes, but is not limited to, any substance which meets the test of hazardous waste characteristics by exhibiting flammability, corrosivity, or reactivity, or which is defined by state and federal laws and regulations, and any pollutant or contaminant which may present an imminent and substantial danger to the public health or welfare. Any hazardous waste as defined by state and federal laws and regulations and amendments occurring after November 11, 1991, are incorporated by reference and include but not limited to: (1) 40 C.F.R. § 261 *et seq.*, Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Toxicity Characteristics Revisions; Final Rule; (2) 40 C.F.R. § 280 *et seq.*, Underground Storage Tanks; Technical Requirements and State Program Approval; Final Rules; (3) 40 C.F.R. § 300, National Oil and Hazardous Substances Pollution Contingency Plan; Final Rule; and (4) K.S.A. 1990 Supp. 65-3431 *et seq.*, Hazardous Waste.

The standards to establish cleanup of a hazardous waste site include, but is not limited to, federal programs administered by the E.P.A., State of Kansas environmental laws and regulations, and city and county standards where the hazardous waste site is located.

25. To control parking of vehicles on the city street throughout the length of the Project covered by this Agreement. On-street parking will be permitted until such time as parking interferes with the orderly flow of traffic along the street.

26. The arterial characteristics inherent in the Project require uniformity in information and regulations to the end that traffic may safely and expeditiously be served and shall adopt and enforce such rules and regulations governing traffic movements as may be deemed necessary or desirable by the Secretary and the Federal Highway Administration.

27. To maintain the control of access rights and to prohibit the construction or use of any entrances or access points along the Project within the City other than those shown on the final design plans, unless prior approval is obtained from the Secretary.

28. Upon request by the Secretary, to provide the Secretary an accounting of all actual non-participating costs which are paid directly by the City to any party outside of the KDOT and all costs incurred by the City not to be reimbursed by the KDOT for preliminary engineering, rights of

way, utility adjustments, construction, and construction engineering work phases, or any other major expense associated with the Project. This will enable the Secretary to report all costs of the Project to the legislature.

29. When the Project is completed and final acceptance is issued the City will, at its own cost and expense, maintain the Project and will make ample provision each year for such maintenance. Upon notification by the State Transportation Engineer of any unsatisfactory maintenance condition, the City will begin the necessary repairs within thirty (30) days and will prosecute the work continuously until it is satisfactorily completed.

ARTICLE III

THE PARTIES MUTUALLY AGREE:

Plans for handling traffic during construction must be included in the design plans provided by the City and must be in conformity with the latest version, as adopted by the Secretary, of the Manual on Uniform Traffic Control Devices (MUTCD). 7. This Agreement and all contracts entered into under the provisions of this Agreement shall be binding upon the Secretary and the City and their successors in office.

8. No third party beneficiaries are intended to be created by this Agreement, nor do the Parties herein authorize anyone not a party to this Agreement to maintain a suit for damages pursuant to the terms or provisions of this Agreement.
