### **STAFF PRESENTATION**

Ms. Braddock Zollner presented the item.

### **APPLICANT PRESENTATION**

Dan Hermreck stated the property owners had adopted two small children and the home was now too small. He said there was an existing garage in the rear of the house and it would be best if it were not disturbed. Mr. Hermreck stated the kitchen was small and unusable. He said a new family room would be incorporated into the first floor level and a modest master bedroom suite would be constructed on the second floor. Mr. Hermreck stated the entire addition would be on the back side of the house.

### **PUBLIC COMMENT**

Dennis Brown said Mr. Hermreck was well versed in working with the Historic Resources Commission wishes. He said the structure was a contributing property but the addition would be in the rear of the structure and would not affect the street scape. Mr. Brown stated most of the rear wall would be removed if the remodel occurred. He said the change would be irreversible.

### **COMMISSION DISCUSSION**

Commissioner Meyer asked Ms. Braddock Zollner if the project could be approved if the applicant would work with the Architectural Review Committee.

Ms. Braddock Zollner stated the project met the requirements of the Certificate of Appropriateness Review. She said Staff had concerns with the Certified Local Government Review and would prefer the applicant work with the Architectural Review Committee.

Commissioner Meyer stated a similar project at 621 Tennessee street had been denied by the Historic Resources Commission.

Commissioner Veatch said the applicant for 621 Tennessee street had proposed the addition be added to the top of the structure and it was denied by the Historic Resources Commission. He said the rear of the property was not character defining but was historic material. Commissioner Veatch said the project at 621 Tennessee street would have altered the main façade of the structure.

Commissioner Williams said old west Lawrence has alleys that are character defining.

Commissioner Foster said he was not sure he could improve upon the project.

Commissioner Veatch said the key was that historic material would be destroyed on the structure.

Commissioner Meyer said the standards state removal of historic material shall be avoided. She asked Staff if there was a difference between the project at 735 Ohio street and 621 Tennessee street.

Ms. Braddock Zollner stated the addition at 735 Ohio street would not be overwhelming and would not be visible from the street.

Commissioner Antle asked if the Architectural Review Committee would add something to affect the design of the project.

Commissioner Meyer said the issue was not the size of the project but an alternative design.

Commissioner Veatch said the nature of the project would have to be changed significantly.

Commissioner Williams said the big difference between the 735 Ohio street project and the 621 Tennessee street project was the view from the street. He said with an extension there would not be a change in the roof line.

Commissioner Veatch asked the applicant if the roof line could be truly hyphenated.

Mr. Hermreck stated he would have to start over on the project due to the limitation with the garage in the rear of the property.

### **ACTION TAKEN**
