**Subject:** request from Eudora Mayor

Hello,

I am contacting you as a member city of the K-10 association. This past weekend, Eudora experienced a very tragic car accident on K-10 that resulted in two deaths and three serious injuries. Our Mayor has taken this very seriously and would like to petition KDOT to place wire barriers along the stretch of K-10 that moves through Eudora. He inquired that I ask the Mayors of the fellow cities that are in the K-10 association to consider joining him in either sending a letter or other form of support to KDOT, state legislators, or Governor requesting that action be taken.

As managers of your communities can you reply to me and indicate if your Mayor's would be willing to show some type of support for this request. Thank you,

John Harrenstein, City Administrator  
Eudora, Kansas  
(785) 542-4111
