

# Kaw Water Treatment Plant Structural Concrete Assessment/Repair

## 2012 CIP REPORT

<u>Project Number:</u>	TBD
<u>General Location:</u>	Kaw Water Treatment Plant
<u>Project Budget:</u>	\$350,000.00
<u>Project Start Date:</u>	TBD
<u>Project End Date:</u>	TBD
<u>Engineer:</u>	TBD
<u>Engineering Cost:</u>	TBD
<u>Engineering Invoiced:</u>	TBD
<u>Contractor:</u>	TBD
<u>Construction Cost:</u>	TBD
<u>Change Orders:</u>	TBD
<u>Construction Invoiced:</u>	TBD
<u>Other Costs:</u>	TBD

### General Project Description

The concrete basins located at the Kaw Water Treatment Plant are over 50 years old and are beginning to experience a general deterioration. The Utility Department proposes to engage a consultant to evaluate the existing condition, conduct concrete testing and propose a scope and estimated cost for repair. An assessment of the concrete condition is essential in extending the useful life of these basins and preventing further deterioration. This project will fund the assessment and repair of some of the more deteriorated basin areas at the Kaw WTP.

### Current Project Status

#### Project Timeline

- TBD

#### Project Funding

The project is included in the 2012 Capital Improvements Plan.
