Subject: Theatre Lawrence

Dear Mayor Cromwell and Commissioners Schumm, Amyx, Carter, and Dever--

I do hope we can support the Community Theatre--as we did our new Arts Center when it was in need of funding. Both are integral parts of what makes Lawrence special--and culturally so enriched. This is a crucial time for the Theatre; their important grant depends on local funding now! I'm hoping a 5-yr. pledge from our City Commission will help assure that we WILL be able to go ahead with building a truly adequate, accessible theatre for years to come. The current one has been a stressful experience for years. The ground floor is not accessible, the number of bathrooms complete inadequate, the space bursting! It is a mark of everyone's devotion to live theatre--and our local, talented, volunteer actors that the shows are always so well attended.

I hope we can help give Theatre Lawrence the building they deserve. Your support right now will be crucial.

Thanks for your consideration...

Hilda Enoch
