**RE:** New navigation added to city website

A change has been made to the global navigation bar to help visitors to the City of Lawrence website find their way around the site more easily.

The change to the navigation bar comes in the addition of what is known as a mega menu. Hovering over the **Services** link with a cursor brings up additional options for some of lawrenceks.org's most visited links as well as city departments.

The same has been done for the **Contact** link, with additional sections to stay informed (receive information from us) and to connect (to send us feedback and comments).

Coding for the mega menu was done by Eric Gruber, eGov Coordinator.
