## City of Lawrence

### Public Works

**TO:** Mark Thiel, Assistant Director of Public Works – Infrastructure Management  
**FROM:** Steven M. Lashley, P.E., Project Engineer – Infrastructure Management  
**CC:** Charles F. Soules, P.E., Director of Public Works  
**Date:** June 6, 2012  
**RE:** 2012 Microsurfacing & N 3<sup>rd</sup>-KTA Intersection Update  
June 12, 2012 City Manager's Report

Please include the following as a City Manager's Report item for the June 12, 2012 City Commission meeting:

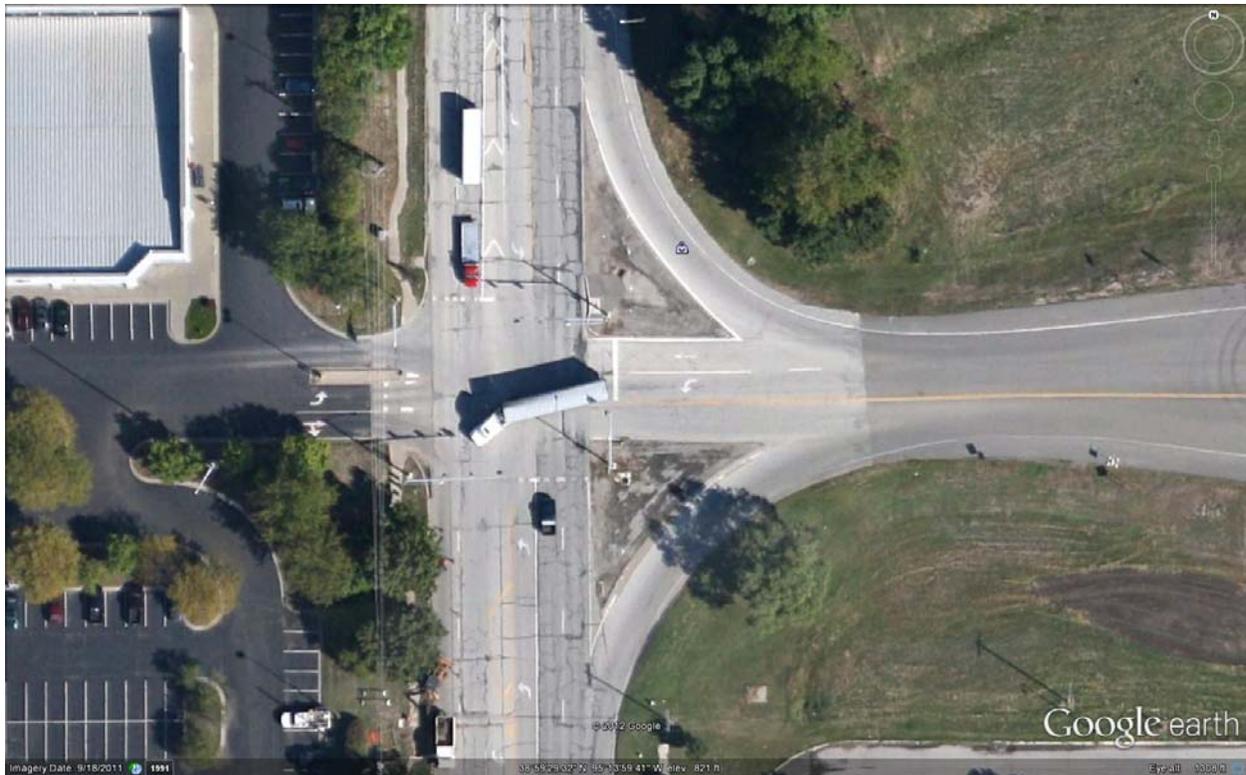

Public Works Department staff has facilitated a partnership with Parks and Recreation Department to collaborate efforts in the enhancement and beautification of the intersection at N 3<sup>rd</sup> St and KTA access ramps. These efforts were performed in conjunction with the planned patching and microsurface sealing of N 2<sup>nd</sup> St & N 3<sup>rd</sup> St from Lincoln St to the north city limits (part of the 2012 Microsurfacing Program project).

The following is a list of planned enhancements and beautification efforts by the departments and their divisions:

- PW Street Maintenance Division – Removal of existing traffic islands, installation of new curb and gutter, and installation of red brick patterned concrete aprons within the new island structure.
- PW Storm Water Maintenance Division – Removal and replacement of several curb inlets.
- PW Traffic Division – Installation of new traffic control cabinet, added flashing left turn signalization, and installation of video detection with the ability to connect to the recently installed N 3<sup>rd</sup> St ITS fiber optic system.
- Parks & Recreation/ Forestry – Installation of landscaping and sprinkler system within the new islands and in the open areas to the northeast and southeast of the intersection.

This was a great partnering effort from all those involved. This project provides a very nice entrance into the City of Lawrence.
