	PCD (Planned Commercial Development) District to the north; drugstore, <i>general retail</i>
	RS7 (Single-Dwelling Residential) District to the south; single family homes, <i>detached dwellings</i> .

STAFF REVIEW

Special Event Permits have been requested to allow a seasonal sale of spring bedding plants and garden accessories to occur in the parking lot at 2300 Louisiana Street from March 20th, 2014 through June 30th, 2014. Per Article 15 of Chapter 6 of the City Code, a Special Event Permit is valid for 14 continuous days. Four Special Event Permits may be approved administratively for a site per year, provided the criteria listed in Article 15 are met; any additional permits for a site require approval by the City Commission. Four permits have been administratively approved for March 20th, 2014 through May 15th, 2014; therefore, four permits for the additional 46 days requested (May 16th, 2014 through June 30th, 2014) have been referred to the City Commission for consideration. The conditions recommended for these additional event permits are the same as those enumerated for the 4 administratively approved permits.

This event meets the definition of a Type 3 event as defined in the City Code since it contains outdoor commercial activities intended to sell, lease, rent, or promote specific merchandise or services.

An approved site plan for 2300 Louisiana [SP-10-73-99] shows that parking in excess of that required for the grocery store is provided on-site. Per the site plan, 298 parking spaces are shown and 179 parking spaces are required by Code. The special event plan shows 43 parking spaces being utilized for the event area. The site contains adequate parking spaces for the special event and grocery store use, (48 + 179 = 227 parking spaces), with excess parking remaining (298 shown on the plan – 227 utilized = 71 excess parking spaces.) The applicant estimates 50 to 60

SE Permit: SE-13-00515
2300 Louisiana Street

customers per day. The amount of parking available on-site is adequate to accommodate these uses.

ADA accessible parking is available to the Checkers patrons, but these parking spaces are not near the special event area. Two ADA parking spaces, with one being van accessible will be provided next to the Special Event Area along the Louisiana Street frontage. The 8 foot wide van accessible space should be located between the 2 parking spaces. The parking spaces will need to be signed with appropriate ADA signage and the van accessible space in between will need to be striped.

The applicant proposes to mark the perimeter of the sales area with fencing that is a mixture of cinder blocks and landscape timbers, illustrated in Figure 1. Per Section 6-1501.6(A)(2), no structures or display areas be located closer than 25 ft to the public right-of-ways adjacent to the property. The fencing will separate the event area from the parking area and will maintain the required 25 ft separation between the event area and the street right-of-way.

The event is proposed to occur 7 days a week from 9 am to 7 pm, which is similar to the operating hours of the surrounding properties. Items will be displayed within a Quonset style greenhouse, a canopy tent, and throughout the sales area within the perimeter fencing. The tent and Quonset greenhouse must comply with the International Fire Code. Prior to the release of the Special Event Permit, the applicant shall obtain the Fire Code Official's approval of the proposed structures or shall remove them from the plan.

The applicant has submitted a temporary sign permit (permit number: 2-13-00267). The permit must be approved before placement of the temporary signage may occur. As the applicant has provided a State of Kansas Sales Tax ID Number, a transient merchant license is not necessary.

Adequate parking is being provided and the proposed hours of operation are similar to the operating hours of adjacent properties. The applicant held a similar sales event in this location last year without incident. The event should not create any negative impacts to surrounding properties.

Recommendation: Planning Staff recommends approval of four Special Event Permits for seasonal garden sales at 2300 Louisiana Street from 9 am to 7 pm from May 16th, 2014 through June 30th, 2014, subject to the following conditions:

1. The ADA spaces being provided for the event shall be signed with ADA approved signage and the van accessible space shall be striped.
2. The Special Event Permit must be displayed on site during hours of operation.
3. Approval of temporary sign permit (permit number: 2-13-00267).
4. Fencing consisting of cinder block and landscaping timbers shall be used to separate the event area from the parking area and to maintain the required 25 ft separation between the event area and the 23rd Street and Louisiana Street rights-of-way, in the location shown on the site plan.
5. Any structures must be removed within 24 hours after the cessation of the event.
6. Cars, trucks, vans, trailers may not be used for sale of merchandise.

SE Permit: SE-13-00515
2300 Louisiana Street

7. Vehicles used for storage of merchandise for event may only be on site during the approved event hours.
8. A 25' wide traffic aisle width shall be maintained during sale. No items shall be displayed within the traffic aisle.
9. Display area, tent or structure may not be within 25' of public right-of-way.
10. The tent or other membrane structure must meet the International Fire Code and be approved by the Fire Code Official, before the Special Event Permit will be issued to the applicant. Any conditions required by the Fire Code Official shall be added to the Special Event Permit.
11. Smoking is not permitted in tents or membrane structures. 'No Smoking' signs shall be conspicuously posted and enforced.
12. Open flame or devices emitting flame, fire or heat or any flammable or combustible liquids, gas or other cooking device shall not be permitted inside or located within 20 ft of the tent or membrane structures while open to the public.
13. Portable fire extinguishers shall be provided on site.
14. Two exits must be provided as well as exit signs and emergency lighting for enclosed tents.
15. If sawdust or mulch is used for a floor it must be kept damp at all times.
