

NATURE CENTER STAFF, BIRDS, ANIMALS TAKE PART AT EAGLES DAY

Lawrence Parks and Recreation Department's Prairie Park Nature Center staff and animals took part in the annual Kaw Valley Eagles Day sponsored by the Jayhawk Audobon Society, the U.S. Army Corps of Engineers and the Lawrence school district. Marty Birrell and staff presented the birds of prey from the nature center, as well as Dave D., the nature center's black-footed ferret, during sessions held throughout the day at Free State High School the last Saturday in January. The nature center also had an interactive information table where people could touch live reptiles and see Edgar Allen Crow, as well as learn more about animals and their natural habitat.
