*Per contract, the processing fee the City pays Hamm is \$45 per ton of single-stream recyclable material dropped off at the MRF. Hamm provides rebate to the City based upon the actual blended value per ton of recyclable materials delivered with process residue excluded. Calculations for 2014 and 2015 were completed in accordance to the contract and its addendum.

Note: Landfill tons include trash from residential and commercial customers. Most of the trash is Municipal Solid Waste (MSW) although a portion of the trash is Construction and Demolition (C&D) Waste. C&D is not considered MSW by US EPA definition and does not count toward the MSW total used to calculate the community recycling rate.
