

## AQUATIC CAMPS WIND DOWN

The week of Aug. 3-7 wound down the Parks and Recreation Aquatics Division *Wet 'N' Wild Camp*. The camp ran Monday-Friday mornings and consisted of arts and crafts, safety lessons, swim lessons, games, free swim and nutrition education through the department's OrganWise Guys program.

This year, a boat race was the feature highlight of the week's activities. Boats were made out of cardboard boxes, plastic bags and duck tape, which the kids help build and construct. The boats were then put to the test in a friendly boat race competition.
