Subject: Commissioner evaluation criteria

Mayor Amyx and Commissioners:

Thank you for your diligence in developing a fair method for choosing a replacement Commissioner. You're correct in saying that Lawrence has a lot to be proud of.

I would like to echo the advice of former Commissioners, Hugh Carter and Dennis Constance, as well as Vice Mayor Soden. It is very critical that you craft a list of evaluation criteria and core values by which all the candidates will be judged. The public will want the assurance that both the advisory committee and the Commission have clearly stated guidelines for narrowing the field and choosing the fifth Commissioner. These criteria, of course, should be published.

I commend you, and thank you once again, Michael Almon
