Subject: KU project

Dear Mr. McCullough,

Thanks for the letter concerning the City Commission meeting at which the amendment to the KU/City of Lawrence Cooperation Agreement will be discussed in relation to taller buildings in the KU Central District Development. We live on 19th Terrace just south of the campus and have no objection to the proposed amendment. Unless you expect some opposition to the amendment, I will probably not attend the city commission meeting. However, I would be willing to speak in favor of the amendment if that would be beneficial.

Thanks,
George Brenner
1711 W. 19th Terrace
