Re: Consent Agenda 7
Date: May 3, 2016

Again, I beg you not to approve this text amendment which was so complicated to read the attachments. And since we no longer receive written minutes that actually show the discussion or any public input or answers to questions, it is frustratijng.

Mayor Amyx had it right. We lack the resources to enforce even our existing animal ordinances or check for compliance. Was everything approved except the slaughter? This is still not great. Are fowl currently allowed to be slaughtered in Lawrence? Who is minding the fort.

The complexity of the documentation attached was mind-boggling. I tried to get info from City Hall on many matters and some on this with no luck.

Please reconsider your vote for this from last week.

Thank you.

Patricia Sinclair
