Mr Cronin

I would like to request a 90 day extension on the Greyhound Bus Stop ? We have had a number of changes within our company . The area that Lawrence Ks is located in our Scheduling is in another District . There is a new Area Mgr in training at this time . I will share some time with the new Area Mgr in a few weeks . I will take him to Lawrence Ks & we will look for a new location . The 90 day extension that I am requesting would help us & also help the City to continue to have transportation In & Out of Your City until we find a new Contract Agent . Thanks for the consideration .
