Subject: LPR Master Plan Draft

Commissioners:

I'd like to suggest that the Lawrence Parks and Recreation master planning process be extended to include opportunities for public comment on the draft plan.

The department did a great job of soliciting public input early on. Now that they've written a draft, It seems natural that they would go back to the community to see if they got things right. After doing so and incorporating suggestions, they could more accurately claim to have developed a "community supported plan."
