Subject: amphitheatre

Hi, Mike

I see that there is a group wanting to build an outdoor recreation center near Clinton Lake and that their plans would include an amphitheatre.

Sesquicentennial Point has in its future development plans an amphitheatre on a natural site that already belongs to the city and will be open to the public for events. I hope that you and the members of the Lawrence City Commission will support the LPRD Master Plan which includes this amphitheatre at The Point. We have waited while other needs have had priority, but it is time to move forward with completing this beautiful park and its anticipated amphitheatre.

Thank you so much.
