RE: Update on Lawrence Summer Food Service Program (SFSP) planning and

Cities Combating Hunger through Afterschool and Summer Meal Programs

(CHAMPS) grant

Introduction

Kansas currently ranks 48th in the nation for feeding kids through the federal Summer Food Service Program (SFSP). Although that number fluctuates from year to year, Kansas consistently falls at the bottom of the list. For more than 20 years, community partners across Lawrence and Douglas County have been working to make our community the exception to this rule. Enormous progress has been made in the Lawrence Summer Food Service program during this time. In the summer of 2016, Lawrence Public Schools, Boys and Girls Club of Lawrence and Lawrence Parks & Recreation served a total of 45,296 meals (breakfast and lunch) at 7 community summer feeding sites, as well as numerous enrolled sites.

Despite the enormous success of the Lawrence Summer Food Service Program, we all recognize the opportunity to improve. According to the Kansas Department of Education, 39.30% of USD 497's 12,106 students were approved for free or reduced-price meals in 2015-2016. More than 50% of students in eight Lawrence schools qualified for free or reduced-price lunches during this period. However, for every 100 students served a free lunch during the regular 2014-2015 school year, only 28 received a free lunch during the summer. That's nearly 75% of qualifying Lawrence students who were missed each meal.

2017 SFSP

This year, K-State Research and Extension, Lawrence Public Schools, the Lawrence-Douglas County Health Department, the Lawrence-Douglas County Housing Authority, the City of Lawrence and Lawrence Parks and Recreation, Just Food, the Douglas County Food Policy Council and many other community partners have been working together to ensure that children across Lawrence and Douglas County have year-round access to healthy meals through the SFSP.

Utilizing funding made available through the city-sponsored Cities Combating Hunger through Afterschool and Summer Meal Programs (CHAMPS) grant, and in an effort to increase participation by

teens in the Lawrence SFSP, an eighth community summer feeding site will be sponsored at Holcom Park Recreation Center. The SFSP planning team has also been communicating with the owner of BOOM! Comics, a local comic book store near Holcom Park, about opportunities to host SFSP kick-off and "spike" events throughout the summer. The effort to increase participation in the SFSP by middle-and-high-school-aged teens will be an ongoing priority of the SFSP planning team.

As part of our efforts to increase the reach of the Lawrence SFSP, the planning team has also been working to take advantage of creative marketing and communications efforts. Last year, the Lawrence SFSP program underwent a dramatic re-branding as the "Fuel Up 4 Summer" program. Promotional materials with the new "Fuel Up 4 Summer" logo were used to advertise summer feeding site locations in all schools across Lawrence. Summer feeding sites were also advertised in the Lawrence Parks and Recreation summer activity guide. This year, Lawrence Public Schools and K-State Research & Extension are working to recreate these efforts. The planning team is also working with the University of Kansas (KU) Big Event, a community-wide volunteer opportunity, to provide targeted marketing/promotion around summer feeding sites with fliers and door hangers. The KU Big Event team has also offered to include SFSP promotional information in information session folders to be distributed to all homes and sites participating in the Big Event.

Through the CHAMPS grant, the SFSP planning team has also been working with researchers at the University of Kansas Work Group for Community Health to coordinate a series of focus groups which will help the planning team identify perceived barriers to participating in the Lawrence SFSP. Focus groups will be conducted with a number of diverse audiences, including teen/youth-specific focus groups to help identify barriers to youth participating in the SFSP.

Opportunities for City Assistance

A frequently-identified barrier to participation in the SFSP is the lack of access to transportation for kids and teens at home during the summer months. Although every effort is made to make summer feeding sites accessible to students across Lawrence, we recognize that not every student is able to arrive at a summer feeding site under their own power. One possible way to address this is to consolidate availability of Student Summer Bus Passes to make them available free-of-charge for all community partners working with youth in our community. Another option, taking into account the relatively small portion of the transit operating budget derived from fares, is to make summer transit free for all youth under 18.
