

Oak Hill Cemetery Mausoleum Update

Lawrence Parks and Recreation Department staff have been working on the mausoleum in Oak Hill Cemetery. To-date, all exterior windows and door openings have been covered. Also, a contractor has been hired to perform tuck-point work, repairing the exterior stones and grouting the structural walls to weatherproof the mausoleum. The cost of the work will be \$4900.

After a survey of the roof, staff found a couple of areas at the corners of the structure needing roof and ventilation repairs. Staff are currently bidding this project and estimate the cost of the repairs to be between \$4000-\$6000.

All work is projected to be completed by mid-summer.
