Mayor Boley  
Vice Mayor Larson  
Commissioners

I am really struggling with your decision to require Short Term Rental License applicants to be Insured at a minimum of \$1 Million Dollars for casualty, personal injury, and property damage. Who is carrying \$1 Million Dollars of personal property in the back of their SUV?

I reviewed the City's Long Term Rental License application and I did not find Any requirements of Insurance, period. So we (The City) are more concerned about "Transients" and their personal belongings, that are renting for a few days, than we (The City) are about all of the Long Term Renters in this University town and all of their belongings, not just their traveling luggage?

Why can't the Short Term Rental Licensees post a sign on their property stating that "Management is not responsible for Theft or Damage to Vehicles or Personal Property"?

The City Of Lawrence has Posted on the Parking Garage on Vermont Street and their Parking Garage on New Hampshire Street the following Signs:

"Management is Not Responsible for Theft or Damage to Vehicles"

Yet a Parking Garage is nothing more than a Short Term Rental for your vehicle and your personal property that is inside of that vehicle. And the City wants no part of being responsible for personal property on their Short Term Rentals!

Do as We say not as We do?

Thank you,  
Brad Gibson
