Lawrence, KS 66044

RE: Assignment of Addendum 1 of the MOU - Action Required

Dear Tom Markus:

RG Fiber, LLC (RG FIBER) respectfully requests to assign RG Fiber's First Addendum to the Memorandum of Understanding "License Agreement" dated August 3rd, 2015 to Kansas Fiber Network, LLC (KFN). To be clear, we're only requesting transfer of Addendum 1, not the License Agreement.

Both RG FIBER and KFN have current License Agreements with the City of Lawrence.

Addendum 1 of RG FIBER's License Agreement provided the City with one (1) 1.25" conduit in East Lawrence and 4 dark fibers to Baldwin City, 2 for the Baldwin City Fire & Medical facility and 2 for future use. The conduit along Haskell and 11th St was installed in 2018. KFN will maintain the 4 dark fibers for the City.

In exchange, RG FIBER was permitted to install fiber in the City's existing 3" innerduct along O'Connell Road from 23rd to N 1175 Rd. Today, a significant majority of this fiber remain both unused or unallocated. KFN desires to acquire this asset from RG FIBER.

Sincerely,

Mike Bosch
Founder/CEO
RG Fiber, LLC

Sincerely,

Mike Brigman
President & General Manager
Kansas Fiber Network, LLC
