To figure monthly expense for city services:

Market value of home = $120,000  
City mill rate = 27.882

First, determine assessed valuation by multiplying the value of home by 11.5%:

$120,000 x 11.5% = $13,800

Second, determine City property tax bill by multiplying assessed value by mill rate levied by the city:

$13,800 x .027902 = $384.77

City Tax Liability = $384.77

Third, determine the monthly City property tax expenses for City service by dividing the city property tax liability by 12 months:

$384.77/12 = $32.06

**Monthly City Property Tax Expense: $32.06**

The following list is a representative sampling of the City Services provided for $32.06 of property tax per month:

- Police protection
- Public Library
- Parks, playgrounds, bike paths
- Animal Control
- Public Health Services
- Public Transit System
- Municipal Court
- City Planning
- School Crossing Guards
- Summer Park Band Concert Series
- Fire Protection/prevention/safety
- Code Enforcement
- Street Repairs and Maintenance
- Cemetery Maintenance
- Landscaped Public Areas
- Recreation Facilities
- Snow Removal
- Swimming Pools
- Traffic Control
- Street Lights

**What else can $32.06 per month buy?**

One 20 gallon tank of unleaded fuel (20 x $1.95/gallon) = $39.00

Movie tickets for a family of five (5 x $7.00) = $35.00
