

Sanitary Sewer Video Inspection Fees

Nine months after the final completion of sanitary sewers in a new development, the sewer lines will be subject to a final inspection and review. The purpose of the inspection shall be to avoid unnecessary public maintenance costs caused by street/storm sewer construction, utility construction, and general contractor work after the sanitary sewers are installed.

The Director of the Department of Utilities is hereby authorized to establish the fee that shall be charged for the inspection. Said fee shall be based on a per lineal foot of sanitary sewer line and will be based on the City's actual cost to perform the inspection. The fee shall be established by February 1st and shall be in effect through January 31st of the next year. The fee shall be published on the City's website on February 1st or as soon thereafter as practicable and shall be available in the City Clerk's Office. The fee shall be assessed and paid in full upon final completion of the public improvements. If benefit district financing is used, the fee can be included in the project cost.

Sanitary Sewer Video Inspection Fees – Effective 2/1/18
