**Subject:** Transportation committee neighborhood request

Hi Ron! I'd like to express my support for Brendy Latore's request to have stop signs retained at the corner of 18th and Indiana where the new roundabout has been built.

As you may remember, Brendy's son, Luther, attends LHS and he is blind. His independent mobility between home and school is critical. And, of course, we want him to be safe and set up for success. Orientation and mobility training has assisted him in following a particular path to LHS.

Thank you in advance for your consideration.
