

→ Alternate Logos

While the Primary Stacked Logo should be used in most cases, the option exists to use these alternate versions for applications where “City of” is required (badge) or preferred or application space does not allow for the primary logo to be used.

Primary Stacked Logo

OPTIONAL STATE LINE

In most cases, “Kansas” should be included with the mark. If the logo is to be produced at a size that makes the state line difficult to read, it is acceptable to drop the state line from the logo. This is applicable to the stacked and horizontal logos, but not the logo badge. Alternate versions of those logos have been provided without the state line (v2 in filename).

Horizontal Logo

Logo Badge
