Memorandum
City of Lawrence
Finance Department

TO: Thomas Markus, City Manager
FROM: Bryan Kidney, Finance Director
Date: May 27, 2016
RE: May 2016 Sales and Use Tax Distribution

The City received its May sales and use tax, along with its share of County sales and use tax distribution this week. Total received was $3,317,872.50. Of this amount, $3,283,811.03 was from sales and use taxes city-wide. The remaining $34,061.47 was from sales in the three Transportation Development Districts (TDD).

Sales and Use Tax Cycle
Retail sales taxes are based on taxable retail sales at the point of the transaction. Unless specifically exempted, the sale, rental, or lease of tangible personal property; labor services to tangible personal property; and admissions to entertainment places, are all subject to sales tax. Retailers collect sales tax at the time of sale. Retailers remit sales tax collections to the State on the 25th day the month after collection. Smaller retailers may remit sales taxes quarterly on the 25th day after the quarter of collection.

Use taxes are, aside from some specific exceptions, based on the location in which the tangible property will be used. Use taxes that the City receives are made up primarily of goods which were purchased outside of Lawrence, but delivered to a Lawrence address. Use taxes also include taxes for the sale of vehicles in which the seller collected less sales tax than what a retailer would have collected within Lawrence.

Typically, the State remits both sales and use tax collections to the City during the last week of the following month. Therefore the March distribution is based on retail sales which occurred on or before March 25, 2016.

Sales Tax Trends
May 2016 sales tax receipts were $154,724 (7.8%) above the same period in 2015. Collections are roughly 5.6% over 2015 levels and are above our 3.7% projection for the 2016 budget.
Retail Sales Tax Distribution

Retail sales within the City are from a wide variety of retailers. The percentages of collection by industry type, shown below, do not vary materially from year to year, but do vary seasonally.

The increase in 2016 sales taxes year-to-date over 2015 is attributed to three key industries:
- 29% increase in sales from building material,
- 7% increase in sales from food services and drinking places, and
- 6% increase in sales from food and beverage stores.

Even though overall there are increases in sales taxes led by the above industries, there are three industries that have less retail sales than the same period last year:
- 16% decrease in sales from utility services.
- 4% decrease in information services
- 1% decrease in retail stores

Distribution of Sales Taxes within the City

We have multiple funds where sales taxes are received. The following flowchart breaks down the May sales tax received and where the funds are used by the City:
May 2016 Sales and Use Tax
