International City/ County Managers Association (ICMA) Annual Conference

<p>The ICMA annual conference is the premiere professional development forum for municipal managers and executive staff. At the conference I was exposed to leaders and innovators in many, if not all facets of municipal government management.</p>		
How will this add value to the City of Lawrence?		
<p>Attendance at the conference each year enables me to bring a variety of ideas for new methods of service delivery, new ways of evaluating service effectiveness, and broader situational awareness about national trends impacting municipal governments. The conference is energizing, and networking with professional managers from across the world provides opportunities to problem solve with folks working on the same challenges and goals as the City of Lawrence.</p>
