1250 E. 902 ROAD (BELOW CLINTON LAKE DAM), (785) 748-0600

For information and questions regarding golf, please contact Darin Pearson, golf operations supervisor, at dpearson@lawrenceks.org

Eagle Bend is owned and operated by the City of Lawrence Parks and Recreation Department. The City received the land through a lease with the Army Corps of Engineers.

Eagle Bend is designed along the Wakarusa River channel located below the Clinton Reservoir Dam. Eagle Bend is dedicated to continuing the preservation of the environment and habitat of wildlife. Much wildlife inhabits Eagle Bend, including rabbits, red foxes, coyotes, deer, quail, blue heron, muskrats, turtles, eagles, hawks, wild turkeys, Canadian geese, woodpeckers, fish and snakes.

The first six holes on the course are open with few trees. The remaining holes are heavily wooded and sit in the shadow of the Wakarusa River. The bald eagle is indigenous to the area and played a major role in the naming of the course. During its construction, bald eagle sightings were plentiful and can still be seen in the fall and early spring. Since the river bends around the course, the name Eagle Bend was a natural. No signature hole is designated, but a consensus favors No. 16, a 560-yard, par 5 with a split fairway, and No. 17, an elevated 165-yard, par 3 with the river channel cutting across the entire front side of the green.

HOLE SPOTLIGHT: Hole 4

527 Yards/Blue Tees • Par 5 • Handicap 11

The first par 5 on the course is open on the right, so make your mistakes there. The second shot should be played to the fairway to ensure a good angle to the green. This large green is tilted from back to front with a large ridge running down the middle. A great opportunity to pick up a birdie.
