**Re: Federal Fiscal Year 2021 List of Projects with Obligated Federal Funds in the Lawrence-Douglas County Metropolitan Planning Area**

---

The Lawrence-Douglas County MPO, the Kansas Department of Transportation (KDOT), and the Lawrence Transit System staffs have reviewed the projects that federal funds were obligated for during the latest completed federal fiscal year (FFY 2021).

The purpose of this FFY 2021 (October 1, 2020 through September 30, 2021) listing is to illustrate the progress of all federal aid transportation projects in the region as they move through the years in the TIP project tables and onto the recently obligated projects list. Projects are listed based on the year the federal funds were obligated, not necessarily the year the construction of the project began. The federal amount represents the federal funds spent on the project.

Federally obligated projects information is included in the text of the Transportation Improvement Program (TIP). This FFY 2021 Projects with Obligated Federal Funds list will be added to the TIP with its next amendment scheduled for MPO Policy Board approval in April 2022.

This listing does not require MPO, state or federal action. The listing will be made available on the MPO website and sent to the Kansas Department of Transportation who will then distribute the listing to the FHWA and the FTA for informational purposes.
