

MPO Response: 7-11-19

This comment is outside of the scope of the TIP Amendment. Staff responded and directed Juanita to the Transportation Commission.

Date Received: 7-11-19

There are no plans to improve the SAFETY of the crosswalk at 11th and New Hampshire. where I office. I cross there numerous times each day to get to the JLE building I was the victim of an accident at that intersection. Others tell me they have had been nearly hit multiple times, including a county employee in a wheelchair. Vehicles do not seem to understand that pedestrians have the right of way. That intersection is well used by us pedestrians especially with the city car garage down the street.

I have emailed various suggestions over the last 2 years since my accident and nothing seems to be happening. Scattered crosswalk with solar controlled stop lights on the 3 corners seems to be the cheapest.

What is the procedure to get the city to look at improving that intersection? SOMETHING MUST BE DONE!

Thank you.
