City of Lawrence, Kansas

Contractor & Tradesperson Licensing Requirements

Guide for Building Contractors, Trade Contractors & Tradespersons (Mechanical, Electrical, Plumbing, Fireplace)

The City of Lawrence, Kansas requires certain building and trade contractors (or contracting businesses) to obtain a license to perform work within the City limits, and to apply for and obtain required building and trade-related construction, remodeling and/or repair permits. In addition to contractor licensing, the City of Lawrence also requires that certain employees performing work for a licensed trade contractor (Mechanical, Electrical, Plumbing and/or Fireplace) be certified as master level or journeyman level tradesperson.

The purpose of contractor and tradesperson licensing is to ensure that construction activities are performed by fully qualified and licensed contractors and tradespersons to meet the City's adopted code standards. Contractor licensing also ensures contractors are appropriately insured and provide workers' compensation for their employees.

The City also requires third-party energy conservation inspectors and/or companies, including Home Energy Rating System (HERS) rating and testing service providers for new one- and two-family dwelling construction, to be registered and approved by the City to conduct these services.

This Guide is provide to assist you in understanding City of Lawrence licensing requirements, and processes and procedures to obtain you City of Lawrence Contractor or Tradesperson License. In this Guide, you will find the following:

- An Overview of Contractor & Tradesperson Licensing Requirements;
- Contractor Licensing Requirements & Definitions (for building & trade contracting businesses);

City of Lawrence, Kansas
Contractor & Tradesperson Licensing Requirements

Overview

The City of Lawrence, Kansas requires certain building and trade contractors (or contracting businesses) to obtain a license to perform work within the City limits, and to apply for and obtain required building and trade-related new construction, remodeling, alteration and/or repair permits. The adopted City licensing regulations are found in Chapter V, Article 5-15 of the City Code, and are summarized in the City of Lawrence, Kansas Contractor Licensing Requirements Table. The purpose of contractor licensing is to ensure that construction activities are performed by qualified and licensed contractors to meet the City's adopted code standards. Contractor licensing also ensures contractors are appropriately insured and provide workers' compensation for their employees.

In addition to contractor licensing, the City of Lawrence (per Kansas State Statutes) requires certain tradespersons who perform and/or oversee trade work as an employee of, or on behalf of a licensed trade contractor (Mechanical, Electrical, Plumbing and/or Fireplace contractor) to be individually licensed as a master or journeyman tradesperson. Adopted regulations are found in Chapter V, Article 5-17 of the City Code, and are summarized in the City of Lawrence, Kansas Tradesperson Licensing Requirements Table.

The City also requires third-party energy conservation inspectors and/or companies, including Home Energy Rating System (HERS) rating and testing service providers for new one- and two-family dwelling construction, to be registered and approved by the City to conduct these services.

Minimum construction experience, training, examination and/or certification requirements must be documented on the City's standard Contractor Licensing Application, Trades Licensing Application (for tradespersons taking a City-approved International Code Council (ICC) exam or Tradesperson Licensing/Exam Sponsorship Application (for tradespersons taking a City-sponsored Prometric exam) to obtain a contractor or tradesperson license, or on the City's Third-Party Energy Conservation Specialist Request for Approval form to obtain registration approval as a Third-Party Conservation Specialist. After an initial contractor or tradesperson license is issued, licenses must be renewed annually by December 31st. The Qualifying Party (see definition on following page) for a contractor license must obtain at least eight (8) hours of related continuing education annually, which meet the City's criteria for approval; licensed tradespersons must obtain at least six (6) hours of continuing trade education annually, which meet the City's criteria for approval.

The City of Lawrence fee for an initial contractor license is $130 (a $65 initial application/processing fee, plus a $65 annual license fee). The annual contractor license renewal fee is $65. Fees must be paid to the City at the time of license application or annual license renewal.

The City of Lawrence fee for an initial individual tradesperson license is $20. The annual tradesperson license renewal fee is $10. NOTE: If an applicant for an individual tradesperson license plans to take a standard trade competency/certification exam from Prometric, a $50 exam sponsorship fee must also be paid to the City of Lawrence in order to satisfy Prometric's local jurisdiction sponsorship requirement.

The Building Safety Division of the Lawrence Planning & Development Services Department administers the City’s contractor licensing and tradesperson licensing programs. Additional information regarding contractor licensing, tradesperson licensing, building/trade permitting, building/trade permit inspections and pertinent City codes can be obtained on the City's website at http://www.lawrenceks.org/pds/building-safety or by contacting the Building Safety Division at (785) 832-7700.
City of Lawrence, Kansas - Contractor Licensing Requirements & Definitions
Chapter V, Article 5-15 of the City of Lawrence Code

The City of Lawrence, Kansas requires certain building and trade contractors (or contracting businesses) to obtain a license to perform work within the City limits, and to apply for and obtain required building and trade-related construction, remodeling and/or repair permits. The adopted City licensing regulations are found in Chapter V, Article 5-15 of the City Code, and are summarized in the City of Lawrence, Kansas Contractor Licensing Requirements Table.

Key Definitions Relative to Contractor Licensing:

Building is any structure used or intended for supporting or sheltering any use or occupancy.

Building Official is the officer or other authority designated by the City Manager charged with the administration and enforcement of this code, or the building official's duly authorized representative.

Contractor, within the meaning of this Article is any person, which also means and includes a firm, co-partnership, corporation, association, or other organization, or any combination thereof, who: (1) undertakes, with or for another within the city, to build, construct, alter, remodel, repair, or demolish any building or structure, or any portion thereof, for which a permit from the city is required, and which work is to be done for a fixed sum price, fee percentage, or other compensation; or (2) builds, constructs, alters, or adds to another building or structure either upon his or her own or another's property. This includes every general contractor, building contractor, residential contractor, concrete contractor, framing contractor and specialty contractor. Unless provided otherwise by Chapter V, Article 5-15 of the City Code, only a contractor licensed under the provisions of Chapter V, Article 5-15 may obtain a building permit.

Contractor, Specialty is a contractor whose operations require performance of construction work requiring special skill and whose principal contracting business involves the use of specialized building trades or crafts.

Contractor Licensing Board (CLB) is a board, established pursuant to Chapter V, Article 16 of the Code of the City of Lawrence, Kansas, and amendments thereto, the function of which is to hear all contested matters pertaining to the suspension, revocation, and reinstatement of licenses under this article, and to review, consider and approve or deny Class L, Limited Specialty Contractor licenses.

Experience is awarded to individuals who have worked within the specific license category for the requisite time period. Individuals must be experienced workers fully qualified and able to perform the trade without supervision. All experience claims must be verifiable by a qualified and responsible person, such as a contractor, a building official, an architect or an engineer.

Qualifying Party is the individual who meets the experience and examination requirements for a license. Every license must have a qualifying party. The qualifying party must spend a minimum of 30 hours a week carrying out the work of the firm. Whenever a building permit is issued in the name of a firm, the firm shall be subject to these regulations and the jurisdiction of the Contractor Licensing Board. The qualifying party shall be the legal representative for the contractor relative to City Code. The designated qualifying party shall satisfy the requirements this Article. A designated qualifying party shall not be a qualifying party for more than one company, unless the companies have a common owner. The qualifying party or parties are: (A) any individual contractor or copartner; (B) any employee of the contractor, applicant so long as said employee spends a minimum of 30 hours a week carrying out the work of the firm; or (C) any stockholder of a corporation who was an original incorporator or original stockholder as shown in the articles of incorporation.

Structure is that which is built or constructed, an edifice or building of any kind, or any piece of work artificially built up or composed of parts joined together in some definite manner.

Trade is an occupation or crafts requiring dexterity and/or skills in relation to the construction of a building, structure or system and its related equipment specific to electrical, mechanical, plumbing and fireplace installation.

¹Referenced standard examination websites are as follows: (1) ICC - [http://www.iccsafe.org/Certification/Pages/ThirdPartyContractorTradesExams.aspx](http://www.iccsafe.org/Certification/Pages/ThirdPartyContractorTradesExams.aspx); (2) Prometric - [https://www.prometric.com/en-us/Pages/home.aspx](https://www.prometric.com/en-us/Pages/home.aspx).

²Testing by Prometric requires that the candidate be sponsored by a local Kansas jurisdiction, such as the City of Lawrence, to sit for an exam. The City of Lawrence has a standard Tradesperson Licensing/Exam Sponsorship Application that must be submitted to the City of Lawrence for review and approval, along with a $50 fee, payable to the City of Lawrence.

³Testing by ICC for a trade certification does NOT require sponsorship by a Kansas jurisdiction, such as Lawrence, to sit for an exam. However, once an approved ICC trade certification exam has been taken and passed, the City requires the trade license applicant to submit the City’s Trades Licensing Application to City Development Services for review and approval.

⁴The City of Lawrence requires every contractor and tradesperson license to be renewed annually by December 31st.

⁵For Class A, B, and D license categories, degree in architecture, engineering, or construction science may be substituted for the certification exam.

⁶For Class E license categories, a degree in engineering conferred by an accredited college or university may be substituted for two and one half (2.5) years of practical experience. Also, graduation from an accredited vocation-technical school or other formal training within the field of endeavor may be substituted for one (1) year of practical experience.
The City of Lawrence (in accordance with Kansas State Statutes) requires certain tradespersons who perform and/or oversee trade work as an employee of, or on behalf of a licensed trade contractor (Mechanical, Electrical, Plumbing and/or Fireplace contractor) to be individually licensed as a master level or journeyman level tradesperson. The adopted regulations are found in Chapter V, Article 5-17 of the City Code, and are summarized in the City of Lawrence, Kansas Tradesperson Licensing Requirements Table.

**Key Definitions Relative to Trade Certification:**

**Apprentice** is a person who engages in electrical, mechanical and plumbing work and does not possess a master or journeyman certificate as required by this City of Lawrence Code Chapter V, Article 17.

**Building Official** is the officer or other authority designated by the City Manager charged with the administration and enforcement of this code, or the building official's duly authorized representative.

**Building Specialty Trade** is the performance of construction work requiring special skill such as electrical, mechanical, plumbing and fireplace installing.

**Contractor**, within the meaning of this Article is any person, which also means and includes a firm, copartnership, corporation, association, or other organization, or any combination thereof, who undertakes, with or for another within the city, to build, construct, alter, remodel, repair, or demolish any building or structure, or any portion thereof, for which a permit from the city is required, and which work is to be done for a fixed sum price, fee percentage, or other compensation.

**Contractor Licensing Board** (CLB) is a board, established pursuant to Chapter V, Article 16 of the Code of the City of Lawrence, Kansas, and amendments thereto, the function of which is to hear all contested matters pertaining to the suspension, revocation, and reinstatement of licenses under this article, and to review, consider and approve or deny Class L, Limited Specialty Contractor licenses.

**Direct Supervision** means that a licensed person shall be in the vicinity of the person being supervised for the purpose of giving information, direction, and demonstration while such person is doing work that requires a license. Further, the person under supervision shall have knowledge of the whereabouts of the supervising licensed person and shall provide accurate information concerning his or her direct supervisor's location upon request of the administrative authority. Not more than two (2) apprentices will be supervised by one (1) licensed person at the same time.

**Experience** is awarded to individuals that have worked within the specific license category for the requisite time period. Individuals must be experienced workers fully qualified and able to perform the trade without supervision. All experience claims must be verifiable by a qualified and responsible person, such as a contractor, a building official, an architect or an engineer.

**Trade** is an occupation or crafts requiring dexterity and/or skills in relation to the construction of a building, structure or system and its related equipment specific to electrical, mechanical, plumbing and fireplace installation.

**Vicinity:** For the purposes of this Article shall mean that the supervisor shall be within the same subdivision or construction site for residential projects, and within the same construction site for non-residential projects.

<td>Master Fireplace Installer</td>
<td>A person who works for a fireplace contractor and designs and/or installs fireplace systems, and who may supervise others, has passed an exam as a master mechanical pursuant to the Kansas Statutes Annotated, and amendments thereto, or possesses a current wood and gas fireplace certification issued by the National Fireplace Institute or other approved organizations on the basis of having passed an approved certification exam. A master fireplace may become a fireplace contractor by meeting all of the requirements for licensure as a fireplace contractor under City Code Chapter V, Article 15.</td>
<td>Four years practical field experience or two years as a journeyman within the fireplace design and/or installation trade.</td>
<td>Standard exams for competency of master heating, ventilation and air conditioning mechanics, as promulgated or administered, or both, by the International Code Council (ICC), or by Prometric, or possesses a current wood and gas fireplace certification issued by National Fireplace Institute or other approved organizations on basis of having passed an approved certification examination. See <a href="http://www.iccsafe.org/Certification/Pages/ThirdPartyContractorTradesExams.aspx">Approved Contractor &amp; Tradesperson License Exams</a>.</td>

<tr>
<td>Journeyman Fireplace Installer</td>
<td>A person who labors at the fireplace trade as an employee of a fireplace contractor, and has passed an exam as a journeyman mechanical pursuant to the K.S.A. Annotated, and amendments thereto, or passed an approved fireplace certification examination. Only exams developed by an independent nationally recognized testing or educational institution, approved by the Building Official, will be accepted. Mechanical Journeyman Fireplace licensees work is limited to installation, service &amp; maintenance of factory-built fireplace systems.</td>
<td>Two years practical field experience within the fireplace design and/or installation trade.</td>
<td>Standard exams for competency of journeyman heating, ventilation and air conditioning mechanics, as promulgated or administered, or both, by the International Code Council (ICC), or by Prometric, or passed an approved fireplace certification examination. 1. Education. A degree in engineering conferred by an accredited college or university may be substituted for two and one half (2.5) years of practical experience. Also, graduation from an accredited vocation-technical school or other formal training within the field of endeavor may be substituted for one (1) year of practical experience.
2. Referenced standard examination websites are as follows: (1) ICC - [http://www.iccsafe.org/Certification/Pages/ThirdPartyContractorTradesExams.aspx](http://www.iccsafe.org/Certification/Pages/ThirdPartyContractorTradesExams.aspx); (2) Prometric - [https://www.prometric.com/en-us/Pages/home.aspx](https://www.prometric.com/en-us/Pages/home.aspx).
3. Testing by Prometric requires that the candidate be sponsored by a local Kansas jurisdiction, such as the City of Lawrence, to sit for an exam. The City of Lawrence has a standard [Tradesperson Licensing/Exam Sponsorship Application](http://www.iccsafe.org/Certification/Pages/ThirdPartyContractorTradesExams.aspx) that must be submitted to the City of Lawrence for review and approval, along with a $50 fee, payable to the City of Lawrence.
4. Testing by ICC for a trade certification does NOT require sponsorship by a Kansas jurisdiction, such as Lawrence, to sit for an exam. However, once an approved ICC trade certification exam has been taken and passed, the City requires the trade license applicant to submit the City’s [Trades Licensing Application](http://www.iccsafe.org/Certification/Pages/ThirdPartyContractorTradesExams.aspx) to City Development Services for review and approval.
5. The City of Lawrence requires all trade licenses to be renewed annually by December 31st to be valid.
6. Persons seeking to obtain licenses within the calendar year of the issue date on their Certificate of Competency shall not be required to provide continuing education for that year. The City will approve continuing education programs recognized by the Kansas Mechanical Trades Review Board and/or the Johnson County Contractor Licensing Program. The City will also approve training provided by International Association of Continuing Education Training (IACET) accredited Continuing Education Unit (CEU) providers, such as trade organizations with appropriate accreditation. Finally, the City will approve classes provided by post-secondary education institutions or technical schools with proof of successful completion of the class.

Jobsite Licensing Guidelines

Class A, B, C Contractors – General, Building, Residential

- Class A, B, and C contractors are general, building, and residential contractors authorized to obtain permits for building, construction, alteration, and remodeling or repair services.
- Class A, B, and C contractors are also authorized to be named as Building Specialty subcontractors to perform framing or concrete services.
- Entities holding these license types must name at least one qualifying party.
- A qualifying party is not required to be present on the jobsite.
- Workers performing labor other than electrical, plumbing, or mechanical trades are not required to be licensed.

Class D, Building Specialty Contractors – Concrete and Framing

- Class D contractors are framing and concrete contractors authorized to be named as subcontractors for building, construction, alteration, and remodeling or repair projects.
- Class D contractors are authorized to obtain permits for projects where the scope of work is limited to framing or concrete work respectively.
- Entities holding these license types must name at least one qualifying party.
- A qualifying party is not required to be present on a jobsite.
- Workers performing labor other than electrical, plumbing, or HVAC trades are not required to be licensed.

Class E, Trade Specialty Contractors – Mechanical, Electrical, Plumbing & Fireplace (factory-built)

- Class E contractors are mechanical, electrical, plumbing and fireplace (factory-built) contractors authorized to be named as subcontractors for building, construction, alteration, and remodeling or repair projects.
- Class E contractors are authorized to obtain permits for projects where the scope of work is limited to mechanical, electrical, plumbing or factory-built fireplace work respectively.
- Entities holding these license types must name at least one qualifying party.
- A qualifying party is not required to be present on a jobsite.
- Workers performing labor within the electrical, plumbing, and mechanical trades are required to be licensed, as follows:
  o At least one journeyman licensed worker is required to be on the jobsite at all times work in the respective trade is being performed.
  o One (1) journeyman licensed worker may directly supervise two (2) unlicensed workers.
  o The ratio of one (1) licensed worker to two (2) unlicensed workers shall be maintained at all times.
  o Licensed workers supervising unlicensed workers shall be on the jobsite.
