- Missing or incomplete information may result in delay in review or processing of permits.
- Project valuation includes the price of equipment, labor and installation cost.
- Please include an email contact. Email is the primary method of communicating plan review comments and notifications that permits have been approved.
- All Installations shall comply with currently adopted construction codes.
- Exterior ground-mounted or building-mounted equipment, for other than single family homes or duplexes, including but not limited to mechanical equipment, utilities boxes and meters, shall be fully screened per 20-1006(b) of the Development Code. For information regarding screening please contact Development Service Building Safety Division 785-832-7700.
- Commercial Services require available fault current label.
- Electrical Service multi-metered installations require permanent labeling.

Electrical Services must meet working clearances.
