RE: August 2015 Monthly Permit Reports

The Building Safety Division issued 217 building permits in August, with total construction for the month valued at \$20,132,481. Total permit fees assessed for the month were \$110,677. Permits were issued for twenty-one (21) new residential projects, including twelve (12) single-family dwellings, six (6) duplexes, two (2) triplexes, and one (1) mixed use building with thirty (30) assisted living dwelling units. Comparisons to previous years will be tracked throughout 2015 in the following table:

Permits were issued for twenty-eight (28) City projects in August, including a remodel of the CNO office at Lawrence Memorial Hospital, 325 Maine Street, valued at \$15,000; three (3) temporary banners promoting the "Farm Fresh Challenge" displayed by a coalition of the Douglas County Sustainability Department and the Lawrence/Douglas County Health Department, valued at \$450; and a water heater replacement for the Lawrence/Douglas County Housing Authority at 428 Mississippi Street, valued at \$500; and twenty-three (23) plumbing permits for inflow and infiltration program projects by the Utilities Department at various locations with valuation totaling \$80,738.

The largest projects for the month were the Americare Assisted Living Campus at 3901 Peterson Road with total valuation of \$12,538,300, and a single-family dwelling at 3642 Buck Brush Court valued at \$1,000,000. The Americare Assisted Living campus project includes eleven (11) buildings:

- Assisted living center (16 private and semi-private rooms) \$8,400,000
- Multi-family independent living building (30 dwelling units) \$2,572,100

- Clubhouse \$185,000
- Two (2) triplexes \$200,000 each
- Four (4) duplexes \$204,300 each
- Two (2) carports w/ 4 bays each \$82,000 each

These statistics are of interest in tracking construction activity in the community, but only partially tell the story for staff workload and performance. Staff has established performance goals of completing "initial" reviews for residential permits within 5 business days and for commercial permits within 15 business days of the application date. An initial review is a comprehensive first review of an application and plans for a building project, and may include review work performed by staff from Planning and Development Services, Fire and Medical, Utilities and Public Works Departments, as well as other relevant review agencies (depending on the nature and scope of the project). Initial and subsequent reviews and comments are tracked in the Innoprise permit tracking system from which reports may be extracted. Development Services staff is responsible for coordinating review work and disseminating review comments to applicants.

During the 2014 calendar year, staff achieved these goals for 95.5% of all residential permits with an average review time of 2.5 days; and 96% of all commercial permits with an average review time of 6.2 days.

In August, staff completed 130 of 131 residential reviews within 5 business days (99.2%), and 122 of 128 commercial reviews within 15 business days (95.3%). The following table tracks performance in meeting these objectives.
